Authentic Transformation A New Vision Of Christ And Culture:

Authentic Transformation Glen Harold Stassen, Diane M. Yeager, John Howard Yoder, 1996 The study of Christian ethics in North America has been profoundly influenced during this century by the work of H Richard Niebuhr That influence is felt nowhere as keenly as in the widespread use of his classic text *Christ and Culture* Yet certain central flaws exist in Niebuhr's work on Christ and culture particularly in its lack of concrete norms for the church's transformative engagement with the world Scholars have long realized that further work must be done in this area if the church is to speak the word of the gospel adequately in the midst of a pluralistic and changing culture In this book Glen H Stassen D M Yeager and John Howard Yoder push Christian ethical reflection beyond Niebuhr by offering an analysis and critique of Niebuhr's well known fivefold typology of the relation of Christ to culture They wrestle with the issue of how the actual working church goes about being an agent of the transformation of culture Unlike Niebuhr whose description of the transformationist ideal had little grounding in the concrete existence of the church the authors reflect on those practices through which congregations seek both to embody faithfulness to Jesus Christ and to be the church in their culture As a prologue to this analytical and constructive task the volume contains a previously unpublished essay by H Richard Niebuhr *Types of Christian Ethics* in which he laid out the framework of the typology he would later expand in *Christ and Culture* [The Hauerwas Reader](#) Stanley

Hauerwas, 2001-07-23 A Stanley Hauerwas Reader including Hauerwas essays and excerpts from his books and monographs intended to provide a comprehensive introduction to his work *Principalities and Powers* Jamie Pitts, 2014-08-28

Principalities and Powers is an ambitious analysis of John Howard Yoder's complex sociological theory Jamie Pitts work transcends ideological boundaries which have perplexed the many writers who have approached the legacy of John Howard Yoder after his death in 1997 Although there is much disagreement a broad consensus is forming that his theology was on the one hand focused on the social and political meaning of the New Testament accounts of Jesus Christ and on the other hand sociologically reductive hermeneutically tendentious and ecclesologically ambiguous *Principalities and Powers* proposes a revision of Yoder's theology that maintains its broadly sociological emphasis but corrects for its apparent methodological political and metaphysical problems Specifically adjustments are made to his social theory to open it to spiritual reality to hone its analytical approach and to clarify its political import To do so his preferred framework for social criticism the theology of the principalities and powers is examined in the context of his wider work and its critics and then synthesized with concepts from Pierre Bourdieu's influential reflexive sociology **Christianity and Cultures** David

Emmanuel Singh, Bernard C. Farr, 2008-11-01 This volume on *Christianity and Cultures* is a way of marking an important milestone in the relatively short story of the Oxford Centre for Mission Studies OCMS The papers here have been exclusively sourced from *Transformation* a quarterly journal of OCMS and seek to provide a tripartite view of Christianity's engagement with cultures by focusing on the question how is Christian thinking forming or reforming through its interaction with the

varied contexts it encounters As Christianity has taken and still takes shape in multiple contexts it naturally results in a variety of expressions and emphases One can gain an appreciation of these by studying different strands of theological missiological thinking socio political engagements and forms of family relationships in interaction with the host cultures

Love and Good Reasons Fritz Oehlschlaeger,2003-01-14 This study seeks to articulate a particular moral Christian vision and discover what it entails for reading texts it tries to bring literary criticism and Christian ethics into discussion with one another

A Grammar of Christian Faith Joe R. Jones,2002-06-03 A Grammar of Christian Faith is a two volume set that aims to confront the widespread disarray in the language and practices of Christian faith today As a grammar it explains how Christian faith provides special ways of speaking and acting that make sense of human life by giving it meaning practicality and hope It advances the thesis that learning how to speak Christian language in worship and life is crucial to learning how to be a Christian Rather than supposing that Christian language and theology need continual updating in order to be relevant to the world Jones urges the church to recover anew how Christian concepts and understanding are intended to form Christian life in all its rich depths Construing theology as confessional theology in the context of the church Jones understands the church as that liberative and redemptive community called into being by the Gospel of Jesus Christ to witness in word and deed the triune God for the benefit of the world The full range of doctrinal themes that are deemed essential to the witness of the church are explored including clear explanations of why they are essential and how they are to be understood In pursuit of a truthful and beneficial witness of the church the work centers on a trinitarian understanding of God in which God freely and lovingly interacts with the world as Creator Reconciler and Redeemer The work throughout affirms the belief that the gracious triune God is the Ultimate Companion who will redeem all creation
