Asian American experience Asian American Librarians and Library Services Janet Hyunju Clarke, Raymond Pun, Monnee Tong, 2017-12-08 What are the library services and resources that Asian Pacific Americans need What does it mean to be an Asian Pacific American librarian in the 21st century In *Asian American Librarians and Library Services* Activism Collaborations and Strategies library professionals and scholars share reflections best practices and strategies and convey the critical need for diversity in the LIS field library programming and resources to better reflect the rich and varied experiences and information needs of Asian Americans in the US and beyond The contributors show that they care deeply about diversity that they acknowledge that it is painfully lacking in so many aspects of libraries and librarianship and that libraries and the LIS profession must systematically integrate diversity and inclusion into their strategic priorities and practices indeed in their very mission such that the rich diversity of experiences and histories of Asian Americans in library and archival collections services and programming are not only validated and recognized but also valued and celebrated as vital components of the shared American experience The volume recognizes and honors the creative and intentional work librarians do for their constituent Asian American communities in promoting resources services and outreach *The Edge of Race* Kalervo Gulson, Zeus Leonardo, David Gillborn, 2017-10-02 The phrase the edge of race can be used both as a description and as a response to two key concerns The first of these is that while race is increasingly on the periphery of education policy with a growing disregard shown for racist inequities as education systems become dominated by market driven concerns it is important that we map the shifting relations of race in neoliberal politics and policies The second concern is that at this time within and outside the spaces of the academy even to mention race equity is to risk condemnation marginalization and ridicule The authors in this collection use the edge of race as a provocation in order to examine the concepts methodologies policies politics processes and practices associated with race and racism in education The chapters offer empirical examples of the perpetuation and perniciousness of racism that point to the continued salience of research about race Additionally the chapters make contributions to conceptual and methodological understandings of race and racism The contributors illustrate the contingency productivity and fragility of race as a concept and point to how educational research continues to be a contested site in and from which to study race and education This book was originally published as a special issue of *Discourse Studies in the Cultural Politics of Education* **Multicultural and Ethnic Children's Literature in the United States** Donna L. Gilton, 2020-02-18 This edition of *Multicultural and Ethnic Children's Literature in the United States* addresses both quantitative and more qualitative changes in this field over the last decade Quantitative changes include more authors books and publishers book review sources booklists and awards organizations institutions and websites and criticism and other scholarship Qualitative changes include More support for new and emerging writers and illustrators Promotion of multicultural literature both in the U S and around the world as well as developments in global literature Developments in the literatures described throughout this book as well as in research

supporting this literature The impact of technology Characteristics and activities of four adult audiences that use and promote multicultural children s literature and Changes in leaders and their organizations This is still a single reference source for busy and involved librarians teachers parents scholars publishers distributors and community leaders Most books on multicultural children s literature are written especially for teachers librarians and scholars They may be introductions to the literature selection tools teaching guides or very theoretical books on choosing evaluating and using these materials Multicultural and Ethnic Children s Literature in the United States focuses much more on the history of the development of this literature from the nineteenth century to the present day This book provides much more of a cultural and political context for the early development of this literature It emphasizes the self determining viewpoints and activities of diverse people as they produce materials for the young Multicultural and Ethnic Children s Literature describes organizations events activities and other contributions of diverse writers illustrators publishers researchers scholars librarians educators and parents It also describes trends in the research on the literature It elaborates more on ways in which diversity is still an issue in publishing companies and an extended list of related industries It describes related literature from outside of the U S and makes connections to traditional global literature Last Multicultural and Ethnic Children s Literature shows the impact of multiculturalism on education libraries and the mainstream culture in general While the other books on multiculturalism focus on how to find evaluate and use multicultural materials especially in schools and libraries this book is concerned over whether and how books are produced in the first place and how this material impact the broader society In many ways it supplements other books on multicultural children s literature
