Aspects Of Teaching Secondary Mathematics Perspectives On Practice:

Aspects of Teaching Secondary Mathematics Linda Haggarty, 2003-09-02 If learners in the classroom are to be excited by mathematics teachers need to be both well informed about current initiatives and able to see how what is expected of them can be translated into rich and stimulating classroom strategies The book examines current initiatives that affect teaching mathematics and identifies pointers for action in the classroom Divided into three major sections it looks at the changing mathematics classroom at primary secondary and tertiary level major components of the secondary curriculum practical pedagogical issues of particular concern to mathematics teachers Each issue is explored in terms of major underpinnings and research in that area and practical ideas can be drawn from the text and implemented in the reader's classroom practice Each chapter has been written by a well respected writer researcher and practitioner in their field and all share a common goal to look thoughtfully and intelligently at some of the practical issues facing mathematics teachers and offer their perspectives on those issues

Aspects of Teaching Secondary Mathematics Linda Haggarty, Open University, 2002 Aspects of Teaching Secondary Mathematics is a book that meets the needs of those teaching and training to teach in this subject The text examines current initiatives that affect teaching mathematics and identifies pointers for action in the classroom Each chapter has been written by a well respected writer researcher and practitioner in their field and all share a common goal to look thoughtfully and intelligently at some of the practical issues facing mathematics teachers and offer their perspectives on those issues

Teaching Mathematics in Secondary Schools Linda Haggarty, 2013-09-13 A companion to Aspects of Teaching Secondary Mathematics this book introduces and explores the contemporary issues and key ideas entailed in the teaching and learning of this subject This book is concerned with exploring the bigger picture of mathematics education and is aimed particularly at those learning to teach mathematics teachers in the classroom who want to continue thinking and developing as mathematics teachers and those concerned with education who would like to be better informed about mathematics education Divided into seven sections to help structure reading this book offers a completely up to date comprehensive overview written by the most known well respected experts in the field

Fundamental Constructs in Mathematics Education John Mason, Sue Johnston-Wilder, 2004 This book brings together a collection of classic tasks extracts and texts that have been quoted repeatedly in mathematics education literature

Aspects of Teaching Secondary Science Sandra Amos, Richard Boohan, 2001 This series provides a practical illustration of the skills knowledge and understanding required to teach in the secondary classroom

Teaching Music in Secondary Schools Gary Spruce, 2002 This series brings together a range of articles extracts from books and reports that inform an understanding of secondary schools in today's educational climate

Teaching Modern Foreign Languages in Secondary Schools Ann Swarbrick, 2013-10-11 A companion to Aspects of Teaching Secondary Modern Foreign Languages this book charts developments during the past few decades of reform in MFL teaching considering the origins of these reforms and analysing

their impact on the classroom The reader is divided into four sections Controversies and disagreements is an overview of changes to MFL teaching and learning during the last thirty years MFL schools and society looks at the role of MFL in a wider social and educational context Developing strategy looks at how more effective MFL teaching might be achieved Research and the MFL teacher looks at the implications for classroom practice of recent research into MFL teaching and Learning

Teaching Design and Technology in Secondary Schools Gwyneth Owen-Jackson,2013-09-13 Teaching Design and Technology in Secondary Schools begins by providing information on the nature purpose and development of design and technology in schools An aptitude for design and technology combines practical skills and theoretical knowledge and the book addresses what this means in practice Design and technology takes in work with such diversity as resistant materials textiles food and systems and control so attention is given to connections between these areas and what makes them design and technology Together these articles comprise a stimulating and comprehensive overview of the issues and ideas surrounding this new popular and exciting element of the secondary school curriculum This book is the companion to Aspects of Teaching Secondary Design and Technology

Teaching Science in Secondary Schools Sandra Amos,Richard Boohan,2013-10-11 A companion to Aspects of Teaching Secondary Science the first section of this reader provides an overview of the key issues discussing the nature of science and its role in the school curriculum The second section goes on to examine critically the ways in which science is reflected in the school curriculum while the third section discusses recent curriculum initiatives and developments Turning the focus from what is taught on to who is taught section four shows that students are very much active learners in the classroom making sense of their experiences and constructing their own meanings The final section covers the role of research in science education giving examples of research papers and considering how productive collaboration between teachers and researchers can impact upon the effectiveness of classroom practice

Teaching Geography in Secondary Schools Margaret Smith,2005-06-29 This book introduces and explores a broad range of contemporary issues and key ideas and will provide a useful background for those teaching and training this exciting subject
