Learning to Love and Loving to Learn Emmelienne Schreiner, 2018-03-12 Dr Schreiner's book Learning to Love and Loving to Learn is a breakthrough study dealing with relationships in the family the immediate family and the extended family She teaches the need for a strong spiritual value system as the basis for learning to love and loving to learn Dr Schreiner touches on such subjects as appropriate discipline positive encouragement helping children to reach their full potential and how to make learning an exciting adventure for all ages She deals with relevant problems of the twenty first century including such issues as addictions codependency and the trap of instant gratification She stresses the need for families to develop self control and to set realistic limits She teaches parents how to develop problem solving skills in their children so they can live more effectively in our troubled times The book opens the door for learning to be an exciting adventure as readers learn to love and to love learning Spiritual growth comes from gaining new information and insight and using that knowledge in your everyday life The author describes the spiritual principles that bring families closer as they learn about themselves and parents free themselves from effects of having been raised in an addictive incestuous or otherwise dysfunctional family Examples of how children and adults of all ages learn are included in every chapter The workbook included at the end of the book will help readers to identify the effects their parents words and methods of disciplining and showing love has had on their own self concept and automatic behaviors Automatic behaviors are emotional and sometimes physical responses to situations and events that arise because the event unconsciously reminds the reader of a similar childhood happening Sometimes automatic behaviors are positive and sometimes negative and unwanted The workbook will help readers to look at and edit the source of their automatic behaviors thereby enabling them to change their undesirable responses

Teaching Kids to Love Learning, Not Just Endure It Michael Connolly, 2011-05-16 With so much emphasis these days on making students globally competitive and prepared to beat students of other nations on international assessments and with so much talk about academic rigor and emphasis on rigid accountability measures we are in danger of losing sight of the most fundamental element of successful teaching and learning love Teaching Kids to Love Learning Not Just Endure It makes the case that if we really want no child left behind we must return to the solid foundation on which successful teaching and learning has always rested the love of teacher for her students and they for her and the passion of the teacher for her discipline and her desire to share that passion with her students

"Marry for Money, You'll Learn to Love Later!" Roger J. Geronimo,2006-05-25 This is the incredibly interesting story which describes the unbelievable mistakes we make in life how we cope with them into the future and what are the lessons learned from this thing called life The story is mixed with a sense of sarcastic humor but always stressing the benefits of humor It is also a story of hope and encouragement as the author fights a battle that his dad his hero lost to Parkinson s disease Heres the Forward What is life really all about Why are we here Is there any purpose to our existence These are questions that have been asked over and over again for centuries and centuries Well I believe I have found the answer now that I am totally broke and deteriorating thanks to Parkinsons disease Gee thanks guys The sarcastic sense of humor in me concludes the following about our existence here on planet earth LIFE IS A BITCH THAN YOU MARRY ONE TWO IN MY CASE AND THEN YOU DIE Guess Im just waiting for the arrival of the Grim Reaper himself However the real me has slowly discovered that we are all on a journey here on earth The journey is intended not to be an easy one It is intended for us to learn from the decisions we make using our free will There is much pain suffering disappointment hurt anger and sorrow And hopefully forgiveness There is no hell I believe You are living it everyday the good and the bad A lot more bad than good What is it all for It is for all of us to learn and to grow as human creatures and to eventually flourish in a place where we will discover peace love harmony Where In the hereafter In that warmth of the Light we hear so much about from people returning from the dead In my mind that Light is better known as God That is our eventual reward for everything that is tossed our way here on earth If we learn our lessons well here than we shall be that much closer to the warmth of the Light in the hereafter If we learn little and cause much pain and anguish to others than we shall be the farthest from the Light but always given opportunities to proceed forward We do this by realizing our indiscretions and asking for forgiveness for our actions on earth when arriving in the hereafter and then performing duties and working toward the Light Boy do I hope I am right about this Believe it or not I actually look forward to being greeted someday by my loved ones and all the pets in the hereafter I got along better with my pets than with some of my crazy relatives and friends So in the chapters that follow I will allow you to make your own judgments As you read on and we share the good times and the pitiful times always with a sense of humor I hope I will honestly try to elaborate on the Lessons Learned from this journey that has been all too short Perhaps through me you can make adjustments and just perhaps not do the same stupid things that I have done so many times in the last half century
