Interpreting the Middle East David Sorenson, 2018-04-19 Contemporary approaches to comparative studies of the Middle East increasingly recognize how globalization and regional mass communication have blurred differences across countries Populations travel across national borders and compare narratives about political change economic futures and the role of the outside world in shaping their lives Organized by five principal themes of a regional overview politics economic development social context and international issues Interpreting the Middle East provides a vibrant introduction to the Middle East that is compatible with this regionalist perspective Invited authorities contribute insightful and accessible original discussions of central headline fresh issues such as the aftermath of the Iraq war Iran's regional ambitions developments in the Israeli Palestinian conflict and the global politics of Middle East oil gender and religion Section introductions by the editor integrate the contributions and suggested readings a glossary and a biographical list of key persons provide helpful guidance for readers

America's War against Global Jihad William R. Nester, 2018-03-06 A specter haunts America the specter of Global Jihad Islamic Holy War This specter was never more horrific than on September 11 2001 when nineteen fanatics hijacked four jetliners and used them as guided missiles to destroy the twin World Trade Towers damage the Pentagon murder nearly 3 000 people and cause as much as several hundred billion dollars worth of direct and indirect damage to New York City and the national economy But Jihadists have periodically attacked Americans ever since November 1979 when mobs shouting death to America overran the American embassy in Tehran and held 52 officials hostage for 444 days President George W Bush responded to the September 11 atrocities by declaring a global war on terror Now in its second decade that war has cost the United States thousands of lives and trillions of dollars Americans are haunted by horrific televised images from across a swath of the Muslim world of bomb blasted cities hundreds of slaughtered bodies thousands of refugees huddled in squalid camps and American journalists in orange jump suits kneeling in the desert before the black robed and masked men who will behead them Americans increasingly question whether the global war on terror has been worth those costs for their own nation and the lands where it is fought This book analyzes America's crusade

against Jihadism The key related questions it addresses are these Looking back what were the successes and failures of Washington s counter Jihadist strategy before and after September 11 Looking ahead should Americans stay the course or cut their losses in Iraq Afghanistan and elsewhere Was the catastrophic September 11 attack a one time event or could its equivalent or worse in death and destruction happen again Renowned Harvard professor Samuel Huntington asserted that The underlying problem for the West is not Islamic fundamentalism it is Islam a different civilization whose people are convinced of the superiority of their culture and are obsessed with the inferiority of their power Is that true Just what of Muhammad s words and deeds if any justifies the barbarism of al Qaeda Islamic State and other Jihadists Finally just how corporeal is that specter of global Jihad to the United States A startling surprise awaits the reader in the final chapter as acclaimed expert William Nester weighs the specter of global Jihad against an array of other national security threats

North Africa Yahia H. Zoubir, Haizam Amirah-Fernández, 2008-01-15 This volume provides a comprehensive overview of the contemporary Maghreb It includes profiles of individual countries and regional issues such as migration gender economics and war in Western Sahara

Individual Agency and Policy Change at the United Nations Ingvild Bode, 2015-03-24 This book highlights how temporary international civil servants play a crucial role in initiating processes of legal and institutional change in the United Nations system These individuals are the missing creative elements needed to fully understand the emergence and initial spread of UN ideas such as human development sovereignty as responsibility and multifunctional peacekeeping The book Shows that that temporary UN officials are an actor category which is empirically crucial yet usually neglected in analytical studies of the UN system Focussing on these particular individual actors therefore allows for a better understanding of complex UN decision making Demonstrates how these civil servants matter looking at what their agency is based on Offering a new and distinctive model Bode seeks to move towards a comprehensive conceptualisation of individual agency which is currently conspicuous for its absence in many theoretical approaches that address policy change Uses three key case studies of international civil servants Francis Deng Mahbub ul Haq and Marrack Goulding to explore the possibilities of this specific group of UN individuals to act as agents of change and thereby test the prevailing notion that international bureaucrats can only act as agents of the status quo This book will be of great interest to students and scholars of international organizations and the United Nations
