Born of Water and the Spirit presents essays on the sacraments by the three major representatives of Mercersburg Theology John Nevin Philip Schaff and Emanuel Gerhart It focuses on Mercersburg's doctrine of baptism and Christian nurture attempts to correct putative deficiencies of the major Reformed trajectories e.g. New England and Princeton and vigorously critiques the anti sacramental animus of revivalistic evangelicalism Mercersburg understood baptism as initiating a person adult or infant into the sacramental life of the church Baptism and Eucharist were objective spiritually real actions that made what Nevin called the mystical presence of Jesus Christ present to Christians bringing transformative power into their lives The present critical edition carefully preserves the original texts while providing extensive introductions annotations and bibliography to orient the modern reader and facilitate further scholarship The Mercersburg Theology Study Series is an attempt to make available for the first time in attractive readable and scholarly modern editions the key writings of the nineteenth century movement known as the Mercersburg Theology An ambitious multiyear project it aims to make an important contribution to the scholarly community and to the broader reading public who can at last be properly introduced to this unique blend of American and European Reformed and Catholic theology

The Wisdom of Many, the Vision of One Marvin D. L. Lansverk, 1994 This book is a full length study of Blake's most famous and arguably his most central literary device the proverb It begins with an investigation into the paradox of how the poet most known for his hatred of generalization and prudence could make such frequent use of proverbs which as the wisdom of many are historically closely tied to careful generalization Arranged in two sections the book first sets Blake's radically new visionary proverbs into a brief literary history examining proverbs in the Bible Bunyan Swedenborg and Milton It concludes with a detailed study of the function of the proverbs in Blake's prophetic works A central aspect of this function is ultimately shown to be the Godlike creation of Blake's Bible of Hell a Bible which turns out to be chiefly comprised of his systematically rewritten versions of the biblical Wisdom books *Dictionary Catalog of the Research Libraries of the New York Public Library, 1911-1971* New York Public Library. Research Libraries, 1979 **The New Christianity**, 1903 **The Encyclopedia of American Religions** J. Gordon Melton, 1978 **Arcana Coelestia, Volume 11** Emanuel Swedenborg, 2013-11-08 This is an exposition of the internal or spiritual sense of the books of Genesis and Exodus according to the law of correspondences It unfolds the spiritual significance of the creation of the stories of Adam and Eve and of the deluge of the lives of the patriarchs of the captivity of the chosen people in Egypt and of their deliverance therefrom and of their subsequent history of the ritual of the Jewish religion its sacrifices and observances and in general traces the foreshadowing through both books of the incarnation and glorification of the Lord Jesus Christ Many passages from other parts of the Word are also fully explained Relations of things

heard and seen in the spiritual world are interspersed explaining the process of dying and of man's resuscitation and conscious entrance into the interior life the nature of the soul of heaven and heavenly joy and of hell its nature and its miseries It also treats of the Grand Man or the whole angelic heaven and the correspondence of the societies therein with the different organs and senses of the body the origin and correspondence of diseases the spirits and inhabitants of the various planets and of other earths in the starry heavens All of which are related to a true understanding of the Divine Word This is book 11 out of 12 and covers Exodus 22-28 **The New Christianity** ,1953
