Stenslund, 2022-09-30 This book offers an ethnographic exploration of the role that atmosphere plays in work processes undertaken within an urban design studio It provides understandings of how architectural practices are fuelled with atmosphere in various configurations throughout different design phases of selected projects for construction From the outside architectural practices commonly appear well ordered and carefully considered established by proof and rationally justified This book though poaches on architects preserves in order to draw attention to features of unpredictability and uncertainty within the design phases By opening up into the machinery room of urban designers the goal is not to spoil the plaster saint cover of an architect business but to remind about the crucial value that pockets of doubt issuing questions rather than answers open mindedness instead of single mindedness play to the processes of design production and creativity The book identifies these pockets as atmospheres enveloping the architectural practice *Structures in Architecture*

Education Prabhjot Singh Sugga, 2024-01-02 There has been a historical discord over curriculum and teaching practices for structures courses in architectural education as students are disinterested and not able to integrate learnings from such courses into their design solutions The research in the book *Structures in Architecture Education Teaching and Integrating in Design* involves the development of an assessment tool by a comparative analysis of past frameworks to understand integration that assesses three dimensions of integration of structures performance physical and visual against three building systems exterior interior and services Around 27-30 samples are selected for each year from first to fourth from three institutions Data for pedagogy and curriculum are also collected that is used to analyse the results from assessment of samples In the second part of this book structural equation modelling is used to analyse if the studio is the preferred mode of learning structures **Innovative Developments in Virtual and Physical Prototyping** Paulo Jorge da Silva
