Asking And Listening Ethnography As Personal Adaptation:

Asking and Listening Paul Bohannan, Dirk van der Elst, 1998-02-04 Giving students the capacity to include ethnography in their own experience Asking and Listening is the first book to trace the changing ways in which human beings have learned to look at the Others Beyond the Gate with their strange languages and stranger customs Not a history of ethnography so much as a chronicle of its uses and potentials Asking and Listening examines the premises of ethnography and concerns itself with a wide range of issues such as ethnocentrism and the morass of cultural relativism the cultures of corporations and the meaning of ethnography for government policy It ends with an examination of the problems in charting our tomorrows ethnography in the information age and for the future Through its pragmatic analysis of cultures as storehouses of alternatives in the way universal problems can and have been approached Asking and Listening offers students not merely the opportunity to make sense of descriptions of other peoples lifeways but makes such ethnographic knowledge immediately useful in their own lives choices and career plans

Culture in Clinical Care Bette Bonder, Laura Martin (PhD.), Andrew W. Miracle, 2002 Defines and describes culture and its interaction with individual experience and personality in the development of beliefs values and actions Information about cultural beliefs related to health and wellness are explored as they affect intervention strategies Based on ethnographic methods mechanisms for culturally sensitive assessment and intervention are considered The text goes beyond traditional fact centered approaches taking the perspective that culture is emergent in individuals as they interact with the physical and social environment The book fills a niche in the health professions programs because of its theoretical approach its emphasis on strategies and methods for clinical interventions and its importance of strategies for practice and self assessment

Reimagining Therapy through Social Contextual Analyses Bernard Guerin, 2022-07-29 This book attempts to shake up the current complacency around therapy and mental health behaviours by putting therapy fully into context using Social Contextual Analysis showing how changes to our social discursive and societal environments rather than changes to an individual s mind will reduce suffering from the mental health behaviours Guerin challenges many assumptions about both current therapy and psychology and offers alternative approaches synthesized from sociology social anthropology sociolinguistics and elsewhere The book provides a way of addressing the mental health behaviours including actions talking thinking and emotions by taking people s external life situations into account and not relying on an imagined internal source Guerin describes the broad contexts for current Western therapies referring to social discursive cultural societal and economic contexts and suggests that we need to research the components of therapies and stop treating therapies as units He reframes different types of therapy away from their abstract jargons offering an alternative approach grounded in our real social worlds aligning with new thinking that challenges the traditional methods of therapy and also providing a better framework for rethinking psychology itself The book ultimately suggests more emphasis should be put on mental health behaviours as arising from social issues including the modern contexts of extreme capitalism

excessive bureaucracy weakened discursive communities and changing forms of social relationships Practical guidelines are provided for building the reimagined therapies into clinics and institutions where labelling and pathologizing the mental health behaviours will no longer be needed By putting mental health behaviours and therapy into a naturalistic or ecological social sciences framework this book will be practical and fascinating reading for professional therapists counsellors social workers and mental health nurses as well as academics interested in psychology and the social sciences more generally A *Handbook for Social Science Field Research* Ellen Perecman, Sara R. Curran, 2006-01-24 A Handbook for Social Science Field Research Essays as well as a perfect lightweight handbook for all researchers and professionals interested in having a comprehensive collection of bibliographic information for social science research *Elgar Encyclopedia of Global Migration* Laura Oso, Natalia Ribas-Mateos, Melissa Moralli, 2025-01-09 In recent decades emerging challenges such as increased digitalization of social lives and the ongoing processes of border externalization and internalization have prompted scholars and civil societies to question the ways in which people view frame and experience migration and draw attention to emerging forms of resistance and mobility justice This timely Encyclopedia engages with critical epistemologies and practices to provide a comprehensive examination of the field of global migration activism and cultural production The Blackwell Companion to Law and Society Austin Sarat, 2008-04-15 The Blackwell Companion to Law and Society is an authoritative study of the relationship between law and social interaction Thirty two original essays by an international group of expert scholars examine a wide range of critical questions Authors represent various theoretical methodological and political commitments creating the first truly global overview of the field Examines the relationship between law and social interactions in thirty three original essay by international experts in the field Reflects the world wide significance of North American law and society scholarship Addresses classical areas and new themes in law and society research including the gap between law on the books and law in action the complexity of institutional processes the significance of new media and the intersections of law and identity Engages the exciting work now being done in England Europe Australia and New Zealand South Africa Israel as well as Third World scholarship Encounters with Emotions Benno Gammerl, Philipp Nielsen, Margrit Pernau, 2019-06-06 Spanning Europe Asia and the Pacific Encounters with Emotions investigates experiences of face to face transcultural encounters from the seventeenth century to the present and the emotional dynamics that helped to shape them Each of the case studies collected here investigates fascinating historiographical questions that arise from the study of emotion from the strategies people have used to interpret and understand each other s emotions to the roles that emotions have played in obstructing communication across cultural divides Together they explore the cultural aspects of nature as well as the bodily dimensions of nurture and trace the historical trajectories that shape our understandings of current cultural boundaries and effects of globalization **Emotion and Discourse in L2 Narrative Research** Matthew T. Prior, 2015-10-22 This book examines the interactional management of emotionality in second

language autobiographical interview research Advancing a discursive constructionist approach it offers a timely methodological and reflexive perspective that brings into focus the dynamic and dilemmatic aspects of interviewee and interviewer identities and experiences and it makes visible the often unexpected and unseen consequences for the research project and beyond The author weaves together critical discussion and empirical analysis based on longitudinal narrative based research with adult immigrants from Southeast Asia living in the US and Canada This interdisciplinary book will be compelling reading for students researchers and others interested in emotion narrative discourse identity interaction interviews and qualitative research *Highland Heritage* Celeste Ray,2015-12-01 Each year tens of thousands of people flock to Grandfather Mountain North Carolina and to more than two hundred other locations across the country to attend Scottish Highland Games and Gatherings There kilt wearing participants compete in athletics Highland dancing and bagpiping while others join clan societies in celebration of a Scottish heritage As Celeste Ray notes however the Scottish affiliation that Americans claim today is a Highland Gaelic identity that did not come to characterize that nation until long after the ancestors of many Scottish Americans had left Scotland Ray explores how Highland Scottish themes and lore merge with southern regional myths and identities to produce a unique style of commemoration and a complex sense of identity for Scottish Americans in the South Blending the objectivity of the anthropologist with respect for the people she studies she asks how and why we use memories of our ancestral pasts to provide a sense of identity and community in the present In so doing she offers an original and insightful examination of what it means to be Scottish in America **The ^AMormon Quest for Glory** Melvyn Hammarberg,2013-06-03 What is it like to be a Mormon in America today Melvyn Hammarberg attempts to answer this question in *The Mormon Quest for Glory* by offering an ethnography of contemporary Mormons
