Assessment And Measurement Of Regional Integration Routledge/Arwick Studies In Globalisation:

Assessment and Measurement of Regional Integration Philippe De Lombaerde, 2006-09-27 The book fills a niche in the market for books on regional integration where most of the publications deal with theory or the analysis of specific cases almost no books can be found dealing with analytical methodology The book includes a combination of well known and expert scholars and up and coming young academics The book will appeal strongly to both economists and politics and while the authors present an interdisciplinary approach the economists and political scientists approaches are kept separate

Assessment and Measurement of Regional Integration Philippe De Lombaerde, 2006-09-27 A unique examination of why the quest for global free trade often forgets that trade liberalization is organized regionally rather than multilaterally There are now more than 250 regional integration initiatives and this number is steadily increasing This trend raises a key question What is the impact of regional integration both for the countries involved and for those excluded from regional integration schemes Using a combined economic political science and scientific approach this book explores how regional integration can be measured and evaluated and delivers comprehensive answers It looks at the methodological problems involved in designing monitoring tools for regional integration in a systematic way and makes a number of concrete suggestions for designing and organising systems of indicators of regional integration It also offers a critical overview of available indicators and tools and presents crucial new monitoring instruments This book will be of great interest to students and researchers of international relations and economics as well as policy makers and professionals within international and regional organizations

The Southern African Development Community (SADC) and the European Union (EU) Johannes Muntzschick, 2017-10-09 This book explores regionalism in the Southern African Development Community SADC and highlights the influence of the European Union EU as an extra regional actor on the organization and integration process The analysis is guided by theory and explains the emergence institutional design and performance of SADC's major integration projects in the issue areas of the economy security and infrastructure It provides in this way a profound assessment of the organization as a whole The study shows that South Africa plays a regional key role as driver for integration while external influence of the EU is ambivalent in character because it unfolds a supportive or obstructive impact The author argues that the EU gains influence over regional integration processes in the SADC on the basis of patterns of asymmetric interdependence and becomes a game changer insofar as it facilitates or impedes solutions to regional cooperation problems
