committed to culturally responsive pedagogy and recognize the structural inequalities in society that are reflected in its schools. Such teachers acknowledge that schools have a history of failing to serve students who are outside of the mainstream culture. For those teachers who recognize the sociopolitical nature of education and the role their own cultural background and privilege play in their work as a professional educator, they will find meaningful applications of research-based exemplars used to create and manage rigorous learning environments that maximize students' opportunities to learn. *Educating English Learners* James Crawford, 2004.
