Church Planting Movements V. David Garrison, 2007 David Garrison PhD University of Chicago defines Church Planting Movements as rapidly multiplying indigenous churches planting churches that sweep across a people group or population segment Garrison s Church Planting Movements How God Is Redeeming a Lost World signaled a breakthrough in missionary church planting After the publication

of Garrison's book in 2004 it became impossible to talk about missions without referencing Church Planting Movements. Church Planting Movements examines more than two dozen movements of multiplying churches on five continents. After presenting these case studies, Garrison identifies ten universal elements present in each movement. He then broadens the circle of examination to identify a further ten common characteristics/factors identified in most but not all of the movements. He concludes his examination with a list of Seven Deadly Sins, i.e., harmful practices that stifle or impede Church Planting Movements. Important for evangelical readers, the author returns to his findings to see how they stand up to the light of Scripture. What he discovers is that Church Planting Movements are much more consistent with the New Testament lay-led house church movements that swept rapidly through the Mediterranean world in the face of hostile opposition than today's more sedentary professional institutionalized Christianity. The Poetry of Faith Stephen F. Dill, 2013-01-01. The ministry of the Rev. Stephen F. Dill was forged in the turbulent civil rights years when he stood for social justice and spoke against racial segregation. In this collection of sermons, many from his 20 years as pastor of Dauphin Way United Methodist Church in Mobile, Alabama, Dill reflects on the implications of his faith for the lives of individuals and for the life of the world. Robin Wilson, one of Dill's successors at Dauphin Way, praises the bold humility of his message and author. Frye Gaillard, in the book's introduction, offers this description of Dill and his sermons: "Almost inevitably the poetry of his preaching caught the quick of my imagination and quietly inevitably made me think." Appropriately, the publication of *The Poetry of Faith* coincides with the 100th anniversary of Dauphin Way. But these challenging and reassuring sermons resonate far beyond those walls. As Methodist educator Gorman Houston put it, this is the Christian faith at its finest for Stephen Dill has always been one of those ministers able to see the church as it should be and not as it was. *Encyclopedia of Christianity in the United States* George Thomas Kurian, Mark A. Lamport, 2016-11-10. From the Founding Fathers through the present, Christianity has exercised powerful influence in the United States, from its role in shaping politics and social institutions to its hand in inspiring art and culture. The *Encyclopedia of Christianity in the United States* outlines the myriad roles Christianity has played and continues to play. This masterful five-volume reference work includes biographies of major figures in the Christian church in the United States, influential religious documents and Supreme Court decisions, and information on theology and theologians, denominations, faith-based organizations, immigration, art from decorative arts and film to music and literature, evangelism, and crusades, the significant role of women, racial issues, civil religion, and more. The first volume opens with introductory essays that provide snapshots of Christianity in the U.S. from pre-colonial times to the present, as well as a statistical profile and a timeline of key dates and events. Entries are organized from A to Z. The final volume closes with essays exploring impressions of Christianity in the United States from other faiths and other parts of the world, as well as a select yet comprehensive bibliography. Appendices help readers locate entries by thematic section and author, and a
