

BEYOND BOB DRUMMING

Drummers Elvin Jones, Paul Motian, Ed Blackwell, Tony Williams and Jack DeJohnette, each members of ground-breaking bands, changed the sound, shape and direction of jazz music. Their playing elevated the position of the drummer to that of the leader of the rhythm section and the emotional energy center of the band. Without the musical contributions of these men, we would not hear or play music the way we do today.

Beyond Bob Drumming is designed to help open these musical frontiers and expand your musical consciousness. This collection of tried and true ideas will show you the “how and why” of this new, more assertive drumming which grew out of the be-bop style. This book will expand those ideas and explore the innovations of the fertile 1960s musical environment and beyond.

Percussionists Stephen L. Barnhart, 2000-03-30 Alphabetically arranged entries summarize the professional careers of over 500 percussionists from various musical venues. Due to the shrinking global village ethnic percussion was rediscovered and incorporated into the concert hall. Since percussion transcends all musical styles it often is featured center stage as a solo or ensemble in heterogeneous musical settings. These excerpts represent percussionists who spent the majority of their lives performing as collaborative or solo artists or working as inventors or manufacturers of percussion instruments. Where applicable select discographies bibliographies and videographies accompany the entries. This detailed reference will appeal to professional percussionists instructors and percussion historians. Data has been compiled from numerous disparate sources and entries are cross referenced. Individual bibliographies include articles by or about the person and a general bibliography lists broader reference works. Discographies and videographies reflect samples of an artist's work.
