Beyond Catastrophe German Intellectuals And Cultural Renewal After World War II 1945-1955:

Beyond Catastrophe Mark W. Clark, 2006-01-01 *Beyond Catastrophe* examines the post World War II leadership efforts of four major German intellectuals Karl Jaspers Thomas Mann Friedrich Meinecke and Bertolt Brecht Clark focuses on the symbolic practical and theoretical contributions of these men to post war cultural reconstruction and pays special attention to their key works of the period *The German Catastrophe* *Doctor Faustus* *The Question of German Guilt* and *Turandot* in which they addressed the key issues of the period including responsibility and guilt for the National Socialist regime German distinctiveness the possibility of a renewed humanism and the relationship of intellectuals to the broader society Addressing an important lacuna in twentieth century intellectual history *Beyond Catastrophe* will appeal to scholars of history and German studies

In the Shadow of Catastrophe Anson Rabinbach, 1997 In this volume Anson Rabinbach an eminent intellectual and cultural historian addresses the writings of some of the central figures in twentieth century German thought Rabinbach begins with a wide ranging introduction in which he discusses the intimate connection between apocalypse and twentieth century German philosophy and compares the two postwar periods He then goes on to show how diverse were the German intellectuals in their response to and understanding of catastrophe in their postwar writings

German Intellectuals and the Challenge of Democratic Renewal Sean A. Forner, 2014 This book examines how democracy was rethought in Germany in the wake of National Socialism the Second World War and the Holocaust Focusing on a diverse network of intellectual elites in the immediate postwar years Professor Forner traces their attempts to reckon with the experience of Nazism and scour Germany's ambivalent political and cultural traditions for materials with which to build a better future In doing so he reveals how they formulated an internally variegated but distinctly participatory vision of democratic renewal a paradoxical counter elitism of intellectual elites Although their projects ran aground on internal tensions and on the Cold War their commitments fuelled critique and dissent in both East and West Germany in the 1950s The book uncovers a conception of political participation that went beyond the limited possibilities of the Cold War era and which would influence the political struggles of later decades in Germany and across the globe
