Beyond Goodbye An Extraordinary Story Of A Shared Death Experience:

Beyond Goodbye Annie Cap, 2011 In her final moments of life Betty connected with her daughter on another continent setting in motion a chain of surprising and unexpected events At the exact time Betty began suffocating in her hospital bed in Oregon her daughter Annie began choking at work in England Somehow distance no longer mattered and as Betty began to die she was reaching across the heavens to say goodbye to her youngest child Seven days later after her death extraordinary events began to happen Annie felt her mother trying to comfort her at night And this was just the beginning Empathically sharing in her mother's death had acted as a catalyst Instantly Annie's intuitive and psychic abilities dramatically increased ultimately leading to a complete renewal of her faith As a non believer Annie was completely transformed She candidly shares her spiritual paranormal and heavenly encounters including verifiable after death communications seeing an angel and talking with God Annie's experiences led her on a journey of investigation She consulted the world's experts on deathbed coincidences near death experiences and after death communications including Dr Penny Sartori Dr Pim van Lommel author of the bestseller *Beyond Consciousness* Dr Peter Fenwick Barbara Fenwick Dr Bruce Greyson P M H Atwater and Barbara Whitfield Talking with these experts confirmed that Annie's after effects matched those of someone who had seen the light and had a near death experience NDE although it was her mother who actually died *A Call From Heaven* Josie Varga, 2025-09-12 What happens when we die Do we really die alone What if death is not the end but a new beginning As the dying prepare to leave this world they often begin to get a glimpse of what lies beyond through deathbed visits from deceased loved ones strangers and angelic or divine figures Religious beliefs appear to have no bearing on these experiences even atheists and nonbelievers have reported such phenomena At times these visits are experienced by others in the room offering incredible validity to the idea that life truly does continue *A Call from Heaven* will Report a wide variety of recent documented deathbed visits from around the world Introduce you to the many different forms of deathbed phenomena including angelic visions shared death experiences gateway or portal appearances and many others Highlight accredited research by renowned experts and scientists Present substantial evidence perhaps the most compelling to date that we do not die alone *A Call from Heaven* illustrates that death is not the end and that we all will be guided to the other side comforting those who are grieving and removing the fear of death for all of us **Besøg fra himlen** Josie Varga, 2018-06-22 Hvad sker der når vi dør Er det enden på alt og dørvælne Disse spørgsmål har optaget mennesker i tusinder og ikke mindst forfatteren Josie Varga der har skrevet flere bøger om kontakt til den anden side Ifølge Josie Varga er det ikke den endelige afslutning men en ny begyndelse Hun bygger sin overbevisning på hundredvis af beretninger fra dem der har oplevet at få besøg af afdøde familiemedlemmer eller engle der bl.a kommunikerer med dem om hvad der skal ske når de dør eller de mange der oplever at en slags port til et andet rige åbner sig og at de får et glimt af hvor de skal hen I *Besøg fra himlen* præsenterer Josie Varga en lang række interessante og tankevækkende beretninger om disse fænomener Og det er ikke kun dem der har

oplevelser ud over det sædvanlige. På rørende oplever også mange gange at der sker noget helt særligt omkring den døde. Det kan være at stemningen i rummet ændrer sig radikalt at de ser et lys eller noget forsvinde fra den dodes krop eller at temperaturen i rummet ændrer sig. Andre fænomener kan være at ure stopper præcis på dødstidspunktet eller at telefonen ringer. Besøg fra himlen er spændende lusing og peger på at der er meget mere mellem himmel og jord og at vi ikke dør alene men bliver hjulpet over til den anden side af dem der er gået forud engle eller guddommelige væsener. *The Good Goodbye* Maureen P. Keeley, Ph.D., Julie M. Yingling, Ph.D., 2025-06-17 Communication experts offer examples and expertise about end of life conversations to inspire teach and encourage the reader to have their own and to grow from them. In it readers will discover how culture affects final conversations and that often the last interactions may not consist of words but gestures and expressions. They will find examples from real people interviewed over many years with themes that include love everyday talk taking care of business identity messages spiritual messages and healing difficult relationships. Readers will learn about the positive outcomes of final conversations both from the advice of children and the detailed stories of adults who were changed profoundly in their attitudes and life paths. They will also see that many people have experienced communication with their loved one after that loved one has passed. Finally readers will discover how others have overcome negativity to engage in the good goodbye and how they can improve their own preparedness to have final conversations. Anyone who faces the death of a loved one and that will be all of us can gain from reading this book. We have found that hospice workers nurses caregivers assisted living personnel spiritual advisors and grief groups are especially interested. whose lives are disrupted by illness or overwhelmed by brokenness That can be brokenness in bodies It can be anything from flu to cancer from sprains to AIDS It can be traumatic brain injury severe mental illness or debilitating chronic conditions Or it could be families in neonatal units dealing with children with debilitating genetic defects struggling to make decisions about if when and how to end lives Or violence on the street or the devastation of a flood ravaged community What is it that we can learn from these situations I put an emphasis on learning because I do believe that if we don't learn every day if we don't learn every hour this work will destroy us It's important to use a word as strong as destroy There are reasons not everyone does this work and there are limits to how much of this work anyone can do What we must keep asking ourselves is Why do we do this work Why are we drawn to those who suffer What is it that's good about this And what not so good What is it that is admirable and something that we should show enormous compassion and respect to ourselves for And what is there in it that is self-destructive that we should be constantly questioning and challenging To answer these questions we must get past the assumption that attending to the suffering is entirely saintly and noble or that it is a symptom of a deep perverse drive Much attention is rightly being focused on people who serve on healthcare's front lines The framework for these discussions tends most often to be the terms burnout and moral distress These terms certainly point to very real experiences very painful experiences Unfortunately they also often carry with them judgmental messages You are failing You must do better What I want to say to you here is that while these terms point to realities for those of us who have worked with suffering day in and day out they may not help us move and grow into the deeper ranges of compassion and recognition and attention that are possible unless we supplement them with other constructs and insights When I say that I want to encourage a conversation within you part of what I have in mind is this We are all multiple selves And one of the things that happens when we work with people and communities that are suffering and in pain physical pain psychological pain spiritual pain is that distinct pieces of ourselves often respond quite differently to what is going on in front of us Many different feelings are stirred We may be terrified and at the same time move with great compassion while being also completely exhausted and madly energized
