Beyond Heroes Beyond Heroes:

Beyond Heroes Kim Barnas, 2014-04-29 Hospitals have long relied on the heroics of one brilliant nurse or doctor to save the day. Such heroics often result in temporary workarounds and quick fixes that leave not only patients and quality care at risk but also increase costs. This is the story of an organization breaking that habit. Like a growing number of healthcare organizations around the world, ThedaCare Inc. has been using lean thinking and the principles of the Toyota Production System to improve quality of care, reduce waste, and become more reliable. But lean thinking was incompatible with ThedaCare's old top-down hero-based system of management. Kim Barnas, former SVP of ThedaCare, shows us how she and her team created a management system that is stable and lean to spur continuous improvement. *Beyond Heroes* shows the reader step by step how ThedaCare teams developed the system using the stories of its doctors, nurses, and administrators to illustrate. The book explores each of the eight essential components of the lean system: from front-line problem solving with the scientific method to daily team huddles and creating standard work for leaders all the way to the top of an organization. Finally, the author introduces four executives from healthcare systems across North America who have implemented ThedaCare's system and share the lessons they learned along the way. *Beyond Heroes* is not just a call to action or an argument for a better healthcare system. It is a necessary roadmap through the rocky terrain ahead, one that healthcare leaders can customize to their special needs.

Beyond the Second Sophistic Tim Whitmarsh, 2020-05-05 The Second Sophistic traditionally refers to a period at the height of the Roman Empire's power that witnessed a flourishing of Greek rhetoric and oratory, and since the 19th century it has often been viewed as a defense of Hellenic civilization against the domination of Rome. This book proposes a very different model. Covering popular fiction, poetry, and Greco-Jewish material, it argues for a rich, dynamic, and diverse culture which cannot be reduced to a simple model of continuity. Shining new light on a series of playful, imaginative texts that are left out of the traditional accounts of Greek literature, Whitmarsh models a more adventurous, exploratory approach to later Greek culture. *Beyond the Second Sophistic* offers not only a new way of looking at Greek literature from 300 BCE onwards but also a challenge to the Eurocentric, aristocratic constructions placed on the Greek heritage. Accessible and lively, it will appeal to students and scholars of Greek literature and culture, Hellenistic Judaism, world literature, and cultural theory.

Handbook of Research on Contemporary Approaches to Orientalism in Media and Beyond Tombul, Işıl, Sarı, Gülşah, 2021-05-28 Orientalism is about much more than just information gathered about the East within its general postcolonial period. In this period, orientalism is a Western discourse that dominated and shaped the view of the East. There is otherization in the way the West has historically looked at the East, and within the information presented about it. These original stories of travelers in the past and previous telling about the East are facing a reconstruction through modern types of media: cinema, television, news, newspaper, magazine, internet, social media, photography, literature, and more are transforming the way the East is presented and viewed. Under the headings of post

orientalism neo orientalism or self orientalism these new orientalist forms of work in combination with both new and traditional media are redefining orientalism in the media and beyond The Handbook of Research on Contemporary Approaches to Orientalism in Media and Beyond shows how both new media and traditional media deal with orientalism today through the presentation of gender race religion and culture that make up orientalist theory The chapters focus on how orientalism is presented in the media cinema TV photography and more This book is ideal for communications theorists media analysts practitioners researchers academicians and students working in fields that include mass media communications film studies ethnic studies history sociology and cultural studies

Epitomic Writing in Late Antiquity and Beyond Paolo Felice Sacchi,Marco Formisano,2022-09-22 This volume makes a powerful argument for epitome combining textual dismemberment and re composition as a broad hermeneutic field encompassing multifarious historical conceptual and aesthetical concerns The contributors gather from across the globe to present case studies of the summing up of cultural artefacts literary and artistic in epitomic writing and as a collective they demonstrate the importance of this genre that has been largely overlooked by scholars The volume is divided into five sections the first showcases the broad range of fields from which epitomic analysis can be made from classics to postmodernism to cultural memory studies the second focuses in on epitome as dismemberment in writing from late antiquity to the modern day the third considers a productive negativity of epitomic writings and how they are useful tools for investigating the very borders and paradoxes of language the fourth brings this to bear on materiality the fifth considers re composition as a counterpart to dismemberment and problematises it Across the volume examples are taken from important late antique writers such as Ausonius Clement of Alexandria Macrobius Nepos Nonius Marcellus and Symphosius and from modern authors such as Antonin Artaud Barthes Nabokov and Pascal Quignard Epitomic writings about art from decorated tabulae to sarcophagi are also included as are epitomic images themselves in the form of manuscript illustrations that sum up their text

Beyond Genesis Allen Epling,2006 SHORT SUMMARY Beyond Genesis offers an alternative explanation for the origin of man that is unique and different from either side in the familiar Creationism versus Evolution debate The author explores a refreshingly new interpretation of the book of Genesis that he believes was not meant to be understood completely until the present age of information and reason He reveals new insights which uncover a storyline in Genesis that has gone unnoticed through the ages He offers timely new explanations for all the other myths of Genesis including the source of Cain s wife and

the flood of Noah All hypotheses are based on sound recent science and the field of genetics and are supported through references to the original sources The central theme of the entire book is that the book of Genesis really is accurate historically and that modern man is a product of BOTH the evolutionary processes and a unique separate line of man the one referred to in Genesis The book also reveals that the plan for man is not finished LONG SUMMARY There has been considerable interest lately in the debate between science and religion over creation and the existence of God In order to gain a larger base of support many religious groups are changing the wording of their agenda from Creationism to Intelligent Design because of problems with the stories in the book of Genesis If we study the history of man as contained in the book of Genesis and compare it to the archeological evidence we do find that there are some common grounds The differences exist mostly because historians refuse to consider the stories contained in the Bible as anything other than myths or exa

White Self-Criticality beyond Anti-racism George Yancy, 2014-10-21 White Self Criticality beyond Anti racism powerfully emphasizes the significance of humility vulnerability anxiety questions of complicity and how being a good white is implicated in racial injustice This collection sets a new precedent for critical race scholarship and critical whiteness studies to take into consideration what it means specifically to be a white problem rather than simply restrict scholarship to the problem of white privilege and white normative invisibility Ultimately the text challenges the contemporary rhetoric of a color blind or color evasive world in a discourse that is critically engaging and sophisticated accessible and persuasive
