Internet Strategy: The Road to Web Services Solutions Guah, Matthew Waritay, Currie, Wendy L., 2005-09-30 This book tells you how to create execute and evolve a customer centric approach for your Internet based management strategy Provided by publisher *Multi-Stakeholder Platforms for Integrated Water Management* Jeroen Warner, 2016-09-17 As they provide a negotiating space for a diversity of interests Multi Stakeholder Platforms MSPs are an increasingly popular mode of involving civil society in resource management decisions This book focuses on water management to take a positive if critical look at this phenomenon Illustrated by a wide geographical range of case studies from both developed and developing worlds it recognizes that MSPs will neither automatically break down divides nor bring actors to the table on an equal footing and argues that MSPs may in some cases do more harm than good The volume then examines how MSPs can make a difference and how they might successfully co opt the public private and civil society sectors The book highlights the particular difficulties of MSPs when dealing with integrated water management programmes explaining how MSPs are most successful at a less complex and more local level It finally questions whether MSPs are or can be sustainable and puts forward suggestions for improving their durability Group Decision Making Thomas L. Saaty, Kirti Peniwati, 2013-11-15 When a group makes a decision that decision carries a lot more weight than when just one person does it Think of the founding

fathers of the American constitution and how much power and influence their ideas have had in the entire world for more than two hundred years Also think of gravity a universal force brought about by an enormous number of minute particles that band together to make a universal law Together they create a massive force a law of nature alone they can barely be noticed That is how our minds work by deciding together to create a power that transcends our individuality Group decision making is a gift and an opportunity to create greater influence through the working together of many minds This book shows how to use the Analytic Hierarchy Process for hierarchical decision making and the Analytic Network Process for decision making in networks with dependence and feedback in group decision making Part I discusses the group and the decision and shows the importance of using a structured process particularly for those high value decisions involving many powerful parties with different interests It discusses how to facilitate a group decision combine individual judgments and smooth differences to arrive at a decision that everyone can live with and get behind Part II discusses the group in planning and how to draw out differences Part III is about conflict resolution and Part IV is about how to address significant issues that come up in group decision making and shows that it is possible to construct an overall group preference
