Beyond The Ashes Cases Of Reincarnation From The Holocaust:

Beyond the Ashes Yonassan Gershom, 1992 *Jewish Tales of Reincarnation* Yonasson Gershom, 2000-01-31 Scattered throughout many kabbalistic and hasidic texts are numerous teaching stories with reincarnation as their central theme Now for the first time you can read 70 of these fascinating tales in a single volume collected and retold by master storyteller Yonassan Gershom The author begins with an over view of basic themes about the afterlife such as the judgement of souls before the Heavenly Court the mystical significance of the Covenant at Sinai the process of tikkun olam repairing the universe and some reasons why human beings return to earth in new bodies He then takes you on an exciting journey through many centuries of Jewish tales where you will meet dozens of saints and sinners animals and humans angels and mortals all attempting to work out their past life karma through applying the teachings of the Torah in earthly life In order to make the classical stories understandable to the modern reader each tale has been expanded to include clear explanations of cultural and religious details So skillfully does Gershom weave this material into the narrative itself that the reader scarcely notices how a gentle form of education is taking place By the time you have finished the book you will not only have been entertained but will have completed an excellent introduction to Jewish spirituality as well Both classical and contemporary tales are included here from sources as widely varied as kabbalistic texts folklore anthologies and discussions on the Internet Of special interest are several new tales collected by the author himself which have never before appeared in print

Jesus the Wicked Priest Marvin Vining, 2008-03-27 Decodes the Dead Sea Scrolls to reveal Christianity s hidden Essene origins Reveals the Essenes as key figures behind Jesus s trial torture and crucifixion Shows how Jesus a former Essene

himself was deemed the Wicked Priest for his liberationist politics and humanist bent Examines the lost Christian doctrine of reincarnation and the secret role of Gabriel in the Virgin Birth The Dead Sea Scrolls discovered in 1947 at Qumran are generally believed to have been written by a Jewish sect known as the Essenes between 350 BCE and 70 CE but until now no convincing methodology has linked the Scrolls to the actual life and teachings of Jesus Marvin Vining builds from the controversial work of Barbara Thiering to demonstrate that the Scrolls do speak directly to the origins of Christianity and even reflect a mirror image of the Gospels from the perspective of Jesus's enemies Christianity arose out of a schism between the exclusivist rigid and militant views of the Essenes and the inclusivist tolerant and nonviolent views of Jesus Jesus was raised an Essene but he refused to follow their orthodoxy Vining shows that the Dead Sea Scrolls are written in a secret coded language called peshar in which Jesus emerges as the Wicked Priest the antagonist to the Teacher of Righteousness who was the leader of the Essenes Jesus the Wicked Priest revitalizes the Gospel message by revealing Jesus's true role as a tireless social reformer and revolutionary teacher Vining's study reopens Christian doctrinal questions supposedly long settled such as reincarnation and the Virgin birth even demonstrating that these two issues are related He discloses that the angel Gabriel was incarnate in a living human being and transmitted the seed of a holy bloodline to the Virgin Mary

The Astrological Revolution Robert A. Powell, Kevin Dann, 2010-10 Like the prostrate pilgrim on the front cover with his head protruding through the vault of heaven to discern the working of the cosmos humanity has for many centuries employed astrology to penetrate the mystery of the stars relationship to human destiny Based on decades of research into both astrological reincarnation and the history of astronomy astrology *The Astrological Revolution* unfolds this mystery The reader is invited to call into question the basis of modern astrology This basis the tropical zodiac emerged through Greek astronomers from what was originally a calendar dividing the year into twelve solar months The fact that ninety eight percent of Western astrologers use the tropical zodiac means that contemporary Western astrology is based on a calendar system that does not reflect the actual location of the planets against the background of the starry heavens In other words most astrologers in the West are practicing a form of astrology that no longer embodies the reality of the stars What is needed to bring astrology which means the science of the stars back into alignment with the stars in the heavens The first step in an astrological revolution that leads to true astrology is to recognize the sidereal zodiac sidereal meaning related to the stars In antiquity the Babylonians Egyptians Greeks Romans and Hindus used the sidereal zodiac and today Hindu Vedic astrologers still use the sidereal zodiac Based on recognition through the newly discovered rules of astrological reincarnation that the sidereal zodiac presents an authentic astrological zodiac a new practice of astrology is possible that offers tools to reestablish a wisdom filled astrology in the modern world This new astrology based on the sidereal zodiac is similar to the classic sidereal form but in a modern form as that practiced by the three magi who prompted by the stars journeyed to Bethlehem two thousand years ago Drawing on specific biographical examples *The Astrological Revolution* reveals new understandings

of how the starry heavens work into human destiny For instance the book demonstrates the newly discovered rules of astrological reincarnation through the previous incarnations of composer Franz Schubert and his patron Joseph von Spaun respectively the Sultan of Morocco Abu Yusuf Ya qub and his erstwhile enemy Alfonso X the Castilian King known as El Sabio the Learned along with their sidereal horoscopes Rudolf Steiner s biography is also considered in relation to the sidereal zodiac and the rules of astrological reincarnation After reestablishing the sidereal zodiac as a basis for astrology that penetrates the mystery of the stars relationship to human destiny the reader is invited to discover the astrological significance of the totality of the vast sphere of stars surrounding the Earth The Astrological Revolution points to the astrological significance of the entire celestial sphere including all the stars and constellations beyond the twelve zodiacal signs This discovery is revealed by studying the megastars the most luminous stars of our galaxy illustrating how megastars show up in an extraordinary way in Christ s healing miracles by aligning with the Sun at the time of those miraculous events The Astrological Revolution thus offers a spiritual yet scientific path of building a new relationship to the stars
