Beyond The Source: Book 2 Guy Steven Needler, 2013-08-01 Dialogues through meditation with the last 6 of the twelve Co Creators that operate out of our own Source Entity Beyond the Source - Book 1: Communications with the Co-Creators Guy Steven Needler, 2012-08-01 Dialogues through meditation with the first 6 of the twelve Co Creators that operate outside of our own Source Entity Source's Challenge - Going Beyond Spirituality Nickki Lee-Leong, 2015-10-29 Source's Challenge Going Beyond Spirituality is not about the life I have had My past is my past it does not define who I am Instead my past defines the people who have been in my life and the influences they have had on me There is nothing wrong with this Actually I thank them for being there for me Who I am personality wise is a consequence of my past conditioning one might say As an individual my challenge as an adult has been to un condition myself to find what I am made of to be a consequence of myself and to be at peace with this Yes others have had worse lives than me but are they and if you have picked up this book are you willing to move past your past and be un conditioned To move past the pain and hurt the agony of being eaten away by the emotions brought about by family and life history To face the new challenge of finding the real self To let go of who you think you are and to find who you truly are Source's Challenge Going Beyond Spirituality is meant to be used as a guide to question what one thinks how one acts why something happened when it will change and where one is going The first step is to realise that everyone may not see from the same perspective but no one is not alone in endeavours of searching for the Truth And that Truth is who you really are From Sources to Scrolls and Beyond David M. Carr, 2024-05-28 This volume collects essays by David M Carr which move from a survey of the last half century of scholarship on Pentateuchal theory to the rationale for and methodologies for such study Its concluding essays link such research to questions of oral transmission material history literary and animal studies Open Source for Knowledge and Learning Management: Strategies Beyond Tools Lytras, Miltiadis D., Naeve, Ambjørn, 2006-12-31 This book presents learning and knowledge management from a point of view where the basic tools and applications are provided by open source technologies It explains an intense orientation to the critical issues of the open source paradigm open source tools applications social networks and knowledge sharing in open source communities Provided by publisher Beyond the Code Noam Shemtov, 2017-09-07 Although the law on infringement is relatively straightforward in relation to the copying of literal and textual elements of software it is the copying of non literal and functional elements that poses complex and topical questions in the context of intellectual property IP protection In many cases it is these non literal and functional elements that contain the real value of a software product This book concerns the copying of non literal and functional elements of software in both the United States and European Union using a holistic approach to address the most topical questions facing experts concerned with legal protection of software products across a range of technological platforms The book focuses on six distinct but interrelated areas contract copyright patents trade dress designs and trade secrets discussing these areas

separately and in relation to one another The book discusses software as a multilayered functional product setting the scene for other legal discussions by highlighting software's unique characteristics It examines models for the provision of software addressing licensing patterns and overall enforceability as well as the statutory and judicial tools for regulating the use of such licences It assesses the protection of non literal and functional software elements under EU and US laws focusing on internal architecture interfaces behavioural elements and GUIs
