Beyond Wolves Martin A. Nie, 2003 Beyond Wolves Martin A. Nie, 2003 Since 1995 when the U S Fish and Wildlife Service released Canadian gray wolves into Yellowstone National Park as part of its wolf recovery program reintroduction has been widely challenged in public forums and sensationalized in the media This conflict has pitted western ranchers and property rights activists against environmental groups highlighting starkly contrasting political percepts In this book Martin A Nie examines not only the future of wolf recovery but also the issues that will define debates around the politics of wildlife management animal rights issues and other flash points The result is a revelatory look at the way the democratic process works when the subject is an environmental hot button issue Examining the wolf recovery program from a policy making perspective Nie looks at programs in Alaska the Lake Superior region the Northern Rockies the Southwest and New England and upstate New York He analyzes the social political and cultural backdrop in the areas in which wolves have been reintroduced and explores such contentious issues as the role of science in public policy the struggle between wilderness protection resource management and private property and the use of stakeholders in environmental conflicts For Nie the debate over wolf recovery is above all a value based political conflict that should take place in a more inclusive participatory and representative democratic arena Wolves Nie writes are an important indicator species both biologically and politically and in *Beyond wolves* he tells an important story of wolves and people place and politics that resonates far beyond the fate of America s most misunderstood inhabitants Beyond Wolves Martin A. Nie, 2003-04-01 Since 1995 when the U S Fish and Wildlife Service released Canadian gray wolves into Yellowstone National Park as part of its wolf recovery program reintroduction has been widely challenged in public forums and sensationalized in the media This conflict has pitted western ranchers and property rights activists against environmental groups highlighting starkly contrasting political perspectives In this essential account Martin A Nie examines not only the future of wolf recovery but also the issues that will define debates around the politics of wildlife management animal rights issues and other flash **Rewilding** Nathalie Pettorelli, Sarah M. Durant, Johan T. du Toit, 2019-01-31 Discusses the benefits and risks as well as the economic and socio political realities of rewilding as a novel conservation tool **Wildlife Politics** Bruce Rocheleau, 2017-03-30 Attitudes towards charismatic animals such as tigers lions bears and wolves vary greatly and change over time resulting in bitter political debates This comprehensive book identifies and analyses the factors that influence policies across the globe highlighting how this impacts conservation as a whole Issues such as overexploitation hunting ecotourism and the struggle to prevent illegal wildlife trafficking are examined and science s role in policymaking is assessed The conflicting forces behind legislation including institutions interest groups and the media are analysed with particular focus on the significance of the Endangered Species Act covering over forty five species that have become matters of political debate in sixty seven different countries Case studies and conceptual frameworks provide a clear understanding of the key topics shedding light on this important yet often

overlooked area of environmental politics *Animal Rights and Welfare* Lawrence W. Baker, 2015-04-21 Through the use of primary source documents readers can learn about key opinions and legislation in the important field of animal rights and welfare a current and highly relevant topic *Animal Rights and Welfare A Documentary and Reference Guide* addresses a broad range of key topics within the subject of animal rights and welfare including zoos animal testing philosophy regarding the treatment of animals and practical measures instituted to protect animals supplying readers with an impartial and authoritative resource for understanding the history of animal rights and the issues that dominate discussions about animal rights Organized chronologically the book discusses topics such as animal rights within the context of hunting for food pelts and other body parts as well as for recreation working animals animals used for education or scientific and medical research animals in the fashion and entertainment industries and the food industry The text provides reproductions of dozens of carefully selected primary documents from the time of Aristotle B C to present day to engage readers and provide opportunities for them to apply their critical thinking and analysis skills The text of each document is introduced by a headnote to place it in context and concludes with analysis that details its significance and clarifies specific passages when needed Each document or excerpt is followed by a full citation of the document *Environment and Society* Paul Robbins, John G. Hintz, Sarah A. Moore, 2014-01-28 Substantially updated for the second edition this engaging and innovative introduction to the environment and society uses key theoretical approaches to explore familiar objects Features substantial revisions and updates for the second edition including new chapters on E waste mosquitoes and uranium improved maps and graphics new exercises shorter theory chapters and refocused sections on environmental solutions Discusses topics such as population and scarcity commodities environmental ethics risks and hazards and political economy and applies them to objects like bottled water tuna and trees Accessible for students and accompanied by in book and online resources including exercises and boxed discussions an online test bank notes suggested reading and website links for enhanced understanding Offers additional online support for instructors including suggested teaching models PowerPoint slides for each chapter with full color graphics and supplementary images and teaching material **Large Carnivore Conservation and Management** Tasos Hovardas, 2018-07-11 Large carnivores include iconic species such as bears wolves and big cats Their habitats are increasingly being shared with humans and there is a growing number of examples of human carnivore coexistence as well as conflict Next to population dynamics of large carnivores there are considerable attitude shifts towards these species worldwide with multiple implications This book argues and demonstrates why human dimensions of relationships to large carnivores are crucial for their successful conservation and management It provides an overview of theoretical and methodological perspectives heterogeneity in stakeholder perceptions and behaviour as well as developments in decision making stakeholder involvement policy and governance informed by human dimensions of large carnivore conservation and management The scope is international with detailed examples and case studies from Europe North and South America

Central and South Asia as well as debates of the challenges faced by urbanization agricultural expansion national parks and protected areas The main species covered include bears wolves lynx and leopards The book provides a novel perspective for advanced students researchers and professionals in ecology and conservation wildlife management human wildlife interactions environmental education and environmental social science The Governance of Western Public Lands Martin Nie, 2008-02-08 Issues like clearcutting wilderness preservation and economic development have dominated debates over public lands for years yet we seem no closer to resolving these matters than we ever were Martin Nie now looks at why there continues to be so much conflict about public lands and resource management and how we can break through these impasses Showing that such conflicts have been driven by interrelated factors ranging from scarcity to mistrust and politics he charts the present status and future prospects of public lands management in America Nie looks closely at two of today's most intractable conflicts the designation of U S Forest Service roadless areas and management of the Tongass National Forest in Alaska He uses these cases to investigate more inclusive issues about governing federal lands in the West such as the contested use of science and litigation lengthy planning processes and controversial practices of Congress and the president in managing environmental disputes Along the way he addresses such other conflict areas as snowmobiles in Yellowstone bear and wolf protection fire and forest health drilling in Montana's Rocky Mountain Front and federal grazing policy Nie emphasizes the complicated and often contentious interaction between the branches of the federal government as a major factor in misunderstandings He particularly cites the problem of vague statutory language which tells our public land agencies little about what they should be doing but lots about how they should be doing it Nie reexamines this confusing body of law and policy in which the rulemaking process wags the dog and agencies are caught in political quagmires to show how the pieces fit but more often don't Throughout the book Nie considers the factors that make some public land conflicts so controversial revisits how they have been dealt with in the past and proposes ways they might be better managed in the future Eschewing the single policy approach to public lands management such as encouraging free markets he instead surveys a diverse array of other available options His big picture outlook for the twenty first century is a bold call for reshaping ongoing conflicts and for reinvesting in our public lands *Conservation and Management of Large Carnivores - Local Insights for Global Challenges* Tasos Hovardas, Stephen Redpath, José Vicente López-Bao, Vincenzo Penteriani, Arie Trouwborst, 2021-06-29
