

The background of the book cover is an antique map, likely from the 18th or 19th century, showing a coastal region with various islands and waterways. The map is rendered in a sepia or aged brown tone. The title 'BEYOND FREEDOM'S REACH' is printed in large, bold, black serif capital letters across the center of the cover, partially obscuring the map. The author's name 'ADAM ROTHMAN' is printed in smaller, black serif capital letters above the title. Below the title, the subtitle 'A KIDNAPPING IN THE TWILIGHT OF SLAVERY' is printed in black serif capital letters. The letters 'I C O' are visible on the left side of the cover, and 'N O F' and 'E A C H' are visible on the right side, suggesting the title 'ICONEACH' or similar.

Beyond the Borders of the Law Katrina Jagodinsky, Pablo Mitchell, 2018-09-19 In the American imagination the West denotes a border between civilization and wilderness past and future native and newcomer and its lawlessness is legendary In fact there was an abundance of law in the West as in all borderland regions of vying and overlapping claims jurisdictions and domains It is this legal borderland that *Beyond the Borders of the Law* explores Combining the concepts and insights of critical legal studies and western borderlands history this book demonstrates how profoundly the North American West has been and continues to be a site of contradictory overlapping and overreaching legal structures and practices steeped in articulations of race gender and power The authors in this volume take up topics and time periods that include Native history the US Canada and US Mexico borders regions from Texas to Alaska and Montana to California and a chronology that stretches from the mid nineteenth century to the near present From water rights to women's rights from immigrant to indigenous histories from disputes over coal deposits to child custody their essays chronicle the ways in which marginalized westerners have leveraged and resisted the law to define their own rights and legacies For the authors legal borderlands might be the legal texts that define and regulate geopolitical borders or they might be the ambiguities or contradictions creating liminal zones within the law In their essays and in the volume as a whole the concept of legal borderlands proves a remarkably useful framework for finally bringing a measure of clarity to a region characterized by lawful disorder and contradiction

Freedom Soldiers Assistant Professor of History Jonathan Lande, Jonathan Lande, 2024-10-15 *Freedom Soldiers* examines the lives of formerly enslaved men who deserted the US Army during the Civil War and their experiences in army camps courts and prisons It explores their reasons for leaving often through their own voices from courts martial testimony

Slavery and Freedom in Texas Jason A. Gillmer, 2017-11 In these absorbing accounts of five court cases Jason A Gillmer offers intimate glimpses into Texas society in the time of slavery Each story unfolds along boundaries between men and women slave and free black and white rich and poor old and young as rigid social orders are upset in ways that drive people into the courtroom One case involves a settler in a rural county along the Colorado River his thirty year relationship with an enslaved woman and the claims of their children as heirs A case in East Texas arose after an owner refused to pay an overseer who had shot one of her slaves

Another case details how a free family of color carved out a life in the sparsely populated marshland of Southeast Texas only to lose it all as waves of new settlers civilized the county An enslaved woman in Galveston who was set free in her owner's will and who got an uncommon level of support from her attorneys is the subject of another case In a Central Texas community as another case recounts citizens forced a Choctaw native into court in an effort to gain freedom for his slave a woman who easily passed as white The cases considered here include *Gaines v Thomas* *Clark v Honey* *Brady v Price* and *Webster v Heard* All of them pitted communal attitudes and values against the exigencies of daily life in an often harsh place Here are real people in their own words as gathered from trial records various legal documents and many other sources People of many colors from diverse backgrounds weave their way in and out of the narratives We come to know what mattered most to them and where those personal concerns stood before the law **Walking Raddy Kim**
