Beyond Left And Right The Future Of Radical Politics

Anthony Giddens

Beyond Left And Right The Future Of Radical Politics:

Beyond Left and Right Anthony Giddens,1994 In the wake of the cataclysmic changes that have transformed the Soviet Union and Eastern European countries since 1989 what can it mean to be politically radical today In this conceptually powerful work the author applies his well known and influential body of ideas about modernity to the present state and future of radical politics Beyond Left and Right Anthony Giddens,1994 **Beyond Left and Right** Anthony

Giddens,1994 How should one understand the nature and possibilities of political radicalism today The political radical is normally thought of as someone who stands on the left opposing backward looking conservatism In the present day however the left has turned defensive while the right has become radical advocating the free play of market forces no matter what obstacles of tradition or custom stand in their way What explains such a curious twist of perspective In answering this question Giddens develops a new framework for radical politics drawing freely on what he calls philosophic conservatism but applying this outlook in the service of values normally associated with the Left The ecological crisis is at the core of this analysis but is understood by Giddens in an unconventional way as a response to a world in which modernity has run up against its limits as a social and moral order The end of nature as an entity existing independently of human intervention and the end of tradition combined with the impact of globalization are the forces which now have to be confronted made use of and coped with This book provides a powerful interpretation of the rise of fundamentalism of democracy the persistence of gender divisions and the question of a normative political theory of violence It will be essential reading for anyone seeking a novel approach to the political challenges which we face at the turn of the twenty first century **Marxism, Mysticism and**

Modern Theory Suke Wolton,2016-07-27 Fashionable new theories tend to reject universal reason in favour of pluralism and locality Marxism Mysticism and Modern Theory examines some of these theories and argues that they are the mystified expression of the current political and economic impasse Today s relativistic outlook reveals a minimalist and atomized viewpoint a retreat from the goal of rational understanding Marxism Mysticism and Modern Theory sets out in this critique the case for developing a new humanism to extend rationality *Routledge Revivals: Anthony Elliott: Early Works in Social Theory* Anthony Elliott,2021-02-25 The volumes in this set originally published between 1999 and 2003 draw together early works in social theory by leading sociologist Anthony Elliott The collection covers some of his major works in the field of social theory with a particular focus on psychoanalysis and social theorists within the area of sociology The works in this set make accessible previously unavailable works from the early stages of Anthony Elliott s ongoing and prolific career to date

The Politics of Actually Existing Unsustainability John Barry,2012-02-23 At the level of developing a progressive and critical theoretical understanding of unsustainability it argues for the importance of integrating vulnerability which has been largely neglected by both mainstream western political theory and analyses of the current global ecological crisis It suggests that valuable insights into the causes of and alternatives to unsustainability can be found in a critical embracing of human

vulnerability and dependency as both constitutive and ineliminable aspects of what it means to be human Rather than seeing invulnerability as the appropriate response the book defends resilience and the ability to cope with rather than solve vulnerability as more productive

The Future of European Social Democracy H. Meyer, J. Rutherford, 2011-11-22

European social democracy is in crisis In the last decade it has ceased to be about either society or democracy The authors explore its values how it can be revived and what kind of political economy it requires to thrive This book includes a foreword by the two leaders of the Building the Good Society project Andrea Nahles and Jon Cruddas

Africa's Radicalisms and Conservatisms, 2021-01-11 With Africa as its point of reference and departure this volume examines why and how the two concepts radicalisms and conservatisms should not be taken as mere binaries around which to organize knowledge It demonstrates that these concepts have multiple and diverse meanings as perceived and understood from different disciplinary vantage points hence the deliberate pluralization of the terms The essays show what happens when one juxtaposes the two concepts and how they are easily intertwined when different peoples lived experiences of poverty political and social alienation education intolerance youth activism social injustice violence etc across the length and breadth of Africa are brought to bear on our understandings of these two particularisms Contributors are Adekunle Victor Owoyomi Adeshina Francis Akindutire Adewale O Owoseni Bright Nkrumah Clement Chipenda Ebenezer Babajide Ishola Edwin Etieyibo Israel Oberedjemurho Ugoma Jonah Uyieh Jonathan O Chimakonam Madina Tlostanova Maduka Enyimba Muchaparara Musemwa Odirin Omiegbe Obvious Katsaura Olufunke Olufunsho Adegoke Peter Kwaja Philip Akporduado Edema Tafadzwa Chevo and Temitope Owolabi

The Last Neoliberal Stefano Palombarin, Bruno Amable, 2021-03-23 Why centrist politics in France is bound to fail This book analyses the French political crisis which has entered its most acute phase in more than thirty years with the break up of traditional left and right social blocs Governing parties have distanced themselves from the working classes leaving behind on the one hand craftsmen shop owners and small entrepreneurs disappointed by the timidity of the reforms of the neoliberal right and on the other hand workers and employees hostile to the neoliberal and pro European integration orientation of the Socialist Party The Presidency of Francois Hollande was less an anomaly than the definitive failure of attempts to reconcile the social base of the left with the so called modernisation of the French model The project based on the pursuit of neoliberal reforms did not die with Hollande's failure it was taken up and radicalised by his successor Emmanuel Macron This project needs a social base the bourgeois bloc designed to overcome the right left divide by a new alliance between the middle and upper classes But this as we have seen recently on the streets of Paris and elsewhere is a precarious process

Stop Mugging Grandma Jennie Bristow, 2019-08-13 A decisive intervention in the war between generations asking who stands to gain from conflict between baby boomers and millennials Millennials have been incited to regard their parents generation as entitled and selfish and to blame the baby boomers of the Sixties for the cultural and economic problems of today But is it true that young people have been victimized by their elders

In this book Jennie Bristow looks at generational labels and the groups of people they apply to Bristow argues that the prominence and popularity of terms like baby boomer millennial and snowflake in mainstream media operates as a smoke screen directing attention away from important issues such as housing education pensions and employment Bristow systematically disputes the myths that surround the generational war exposing it to be nothing more than a tool by which the political and social elite can avoid public scrutiny With her lively and engaging style Bristow highlights the major issues and concerns surrounding the sociological blame game
