Beyond Objectivism And Relativism Beyond Objectivism And Relativism:

Beyond Objectivism and Relativism Richard J. Bernstein, 2011-09-16 Drawing freely and expertly from Continental and analytic traditions Richard Bernstein examines a number of debates and controversies exemplified in the works of Gadamer Habermas Rorty and Arendt He argues that a new conversation is emerging about human rationality a new understanding that emphasizes its practical character and has important ramifications both for thought and action

Beyond Objectivism & Relativism rj bernstein, 1983 *The Art of Reading Scripture* Ellen F. Davis, Richard B. Hays, 2003-10-02 The difficulty of interpreting the Bible is felt all over today Is the Bible still authoritative for the faith and practice of the church If so in what way What practices of reading offer the most appropriate approach to understanding Scripture The church's lack of clarity about these issues has hindered its witness and mission causing it to speak with an uncertain voice to the challenges of our time This important book is for a twenty first century church that seems to have lost the art of reading the Bible attentively and imaginatively The Art of Reading Scripture is written by a group of eminent scholars and teachers seeking to recover the church's rich heritage of biblical interpretation in a dramatically changed cultural environment Asking how best to read the Bible in a postmodern context the contributors together affirm up front Nine Theses that provide substantial guidance for the church The essays and sermons that follow both amplify and model the approach to Scripture outlined in the Nine Theses Lucidly conceived carefully written and shimmering with fresh insights The Art of Reading Scripture proposes a far reaching revolution in how the Bible is taught in theological seminaries and calls pastors and teachers in the church to rethink their practices of using the Bible Contributors Gary A Anderson Richard Bauckham Brian E Daley Ellen F Davis Richard B Hays James C Howell Robert W Jenson William Stacy Johnson L Gregory Jones Christine McSpadden R W L Moberly David C Steinmetz Marianne Meye Thompson **The New Constellation**

Richard J. Bernstein, 2013-06-12 In this major new work Bernstein explores the ethical and political dimensions of the modernity post modernity debate Bernstein argues that modernity post modernity should be understood as a kind of mood one which is amorphous shifting and protean but which exerts a powerful influence on our current thinking Focusing on thinkers such as Heidegger Derrida Foucault Habermas and Rorty Bernstein probes the strengths and weaknesses of their work and shows how they have contributed to the formation of a new mood a new and distinctive constellation of ideas This new constellation has put ethical and political issues back on the philosophical agenda forcing us to confront anew the Socratic question How should I live **The Great War and the Death of God** Charles A. O'Connor, 2014-04-07 A compelling analysis of how World War I spurred the rise of atheism and the subsequent effect on Western theology philosophy literature and art The catastrophic Great War left humanity in a world no longer trustworthy and reassuring but seemingly meaningless and indifferent Instead of redressing humanity's cosmic alienation postwar Western culture abandoned its concern for cosmic meaning lost its confidence in human reason and enabled the scientific worldview of neo

Darwinian materialism to emerge and eventually dominate the Western mind According to the proponents of that worldview science is the only source of genuine truth nature is the product of a blind evolutionary process and reality at bottom is just physics and chemistry Thus God is dead and continued belief in a transcendently purposeful universe is intellectually indefensible and either disingenuous or delusional By turning away from the eternal questions about the nature of reality Western culture effectively ceded unwarranted credibility and prominence to neo Darwinian materialism including its recently strident New Atheism O Connor revisits the 20th century s journey from Nietzsche s declaration of the death of God to the rise of materialism as the dominant worldview of western intelligentsia We live in a world that has largely expelled both mind and meaning from the citadels of serious intellectual pursuit and O Connor s book is a fascinating and scholarly expedition into the how and why of that troubling development Carter Phipps author of *Evolutionaries* I found this topic to be top rate The book is well researched and conceived nicely narrated and analyzed and an original body of inquiry into a challenging fascinating intellectual tradition Ronald M Johnson Professor Emeritus of American History Georgetown University

Feminist Interpretations of John Dewey Charlene Haddock Seigfried, 2010-11-01 This is the first collection of essays to evaluate John Dewey s pragmatist philosophy from a feminist perspective The variety of feminist interpretations offered here ranges from Jane Addams s praise for his collegial efforts to resolve the problems of the inner city to contemporary comparisons of his approach with Addams s own critique of capitalism as patriarchal In between are essays assessing Dewey s contributions to feminist theory and practice both in his lifetime and in regard to contemporary feminist approaches to education subjectivity objectivity and truth and social and political philosophy At a time when feminists are questioning and developing alternatives to the scientistic value free inquiry advocated by logical positivism the myth of detached observation informing the epistemological turn rationalistic ethics and the model of an unattached nonrelational subject this book reminds us of Dewey s early and passionate opposition to the same assumptions and his reconstruction of philosophy as a method of moral and political diagnoses and prognosis It has often been remarked that Dewey s pragmatism provides a genuine alternative to the usual masculinist biases of Western philosophy and the various essays in this book develop this claim more extensively Contributors besides the editor are Jane Addams Ana M Mart nez Alem n Paula Droege Marilyn Fischer Eugenie Gatens Robinson Judith M Green Lisa Heldke Ellen Condliffe Lagemann Erin McKenna Marjorie C Miller Elizabeth Kamarck Minnich and Shannon Sullivan

On Creation, Science, Disenchantment and the Contours of Being and Knowing Matthew W. Knotts, 2019-09-19 For Augustine the world is replete with meaning it represents not merely a collection of facts to be catalogued but a repository of truths to be discovered and discerned a view which contrasts with the one we have inherited as a result of the thought of figures such as Descartes Newton and Kant What difference would it make to see the world as created Matthew W Knotts explores this question in close conversation with Augustine according to whom our nature as God s creatures determines fundamental aspects of our identity and our knowledge In a

postmodern context informed by a renewed appreciation of the limitations of human nature and reason Augustine once again emerges as an insightful and compelling source for further reflection *The Critical Margolis* Joseph Margolis, 2021-06-01

Pragmatism's revival since 1980 can be credited to several thinkers among them the longtime professor of philosophy at Temple University Joseph Margolis *The Critical Margolis* collects within one volume more than a dozen of his essential writings allowing readers to become familiar with his important contributions to core areas of philosophy where he has controversially challenged scientific analytic and continental traditions During a period when sharp divides animate intellectual debates realism or idealism matter or mind causality or freedom machines or persons facts or values cognition or emotion and the like Margolis dissolves false dichotomies and reconstructs philosophy itself Prominent philosophers of the second half of the twentieth century from Quine Danto and Putnam to Derrida Rorty and Brandom along with a host of similarly significant thinkers are targets of Margolis's critiques If there could be a comprehensive volume of pragmatism for today and tomorrow *The Critical Margolis* shall serve **Michel Foucault** Barry Smart, 1994 **Max Weber and the Problems of Value-free Social Science** Jay A. Ciaffa, 1998 This book examines the Werturteilsstreit value judgment dispute from its initial stages in the debates between the eminent German social historian Max Weber and his contemporaries to more recent contributions from scholars such as Karl Popper Talcott Parsons and Jurgen Habermas
