Beyond the Multiplex Barbara Klinger, 2006-03-13 Publisher description **Locked Out** Evan Elkins, 2019-08-31 A rare insight into how industry practices like regional restrictions have shaped global media culture in the digital era This content is not available in your country At some point most media consumers around the world have run into a message like this Whether trying to watch a DVD purchased during a vacation abroad play an imported Japanese video game or listen to a Spotify library while traveling we are constantly reminded of geography's imprint on digital culture We are locked out Despite utopian hopes of a borderless digital society DVDs video games and streaming platforms include digital rights management mechanisms that block media access within certain territories These technologies of regional lockout are meant first and foremost to keep the entertainment industries global markets distinct But they also frustrate consumers and place territories on a hierarchy of global media access Drawing on extensive research of media industry strategies consumer and retailer practices and media regulation *Locked Out* explores regional lockout's consequences for media around the globe Power and capital are at play when it comes to who can consume what content and who can be a cultural influence Looking across digital technologies industries and national contexts *Locked Out* argues that the practice of regional lockout has shaped and reinforced global hierarchies of geography and culture **Fandom for Us, by Us** Alfred L. Martin Jr., 2025-04-22 *Fandom for Us by Us* is an in depth study of Black fan practices using more than 70 interviews with Black fans of Black Panther The Wiz The Golden Girls and the African American ballerina Misty Copeland **Beyond the Screen** Sarah Atkinson, 2014-04-17 Runner up for the British Association of Film Television and Screen Studies Best Book Prize 2015 *Beyond the Screen* presents an expanded conceptualization of cinema which encompasses the myriad ways film can be experienced in a digitally networked society where the auditorium is now just one location amongst many in which audiences can encounter and engage with films The book includes considerations of mobile web social media and live cinema through numerous examples and case studies of recent and near future developments Through analyses of narrative text process apparatus and audience this book traces the metamorphosis of an emerging cinema and maps the new spaces of spectatorship which are currently challenging what it means to be cinematic in a digitally networked era **Screening the Operatic Stage** Christopher Morris, 2024-03-29 From the early days of radio broadcast to today's recorded simulcasts and live online productions opera houses have embraced technology as a way to reach new audiences But how do these new forms of remediated opera extend amplify or undermine production values and what does the audience gain or lose in the process In *Screening the Operatic Stage* Christopher Morris critically examines the cultural implications of opera's engagement with screen media Foregrounding a playful exchange and self awareness between stage and screen *Screening the Operatic Stage* analyzes how opera sees itself on video Morris uses the conceptual tools of media theory to understand the historical and contemporary screen cultures that have transmitted the opera house into living rooms onto desktops and portable devices

and across networks of movie theaters These screen cultures reveal how inherently technological opera is as a medium begging the question of whether it can be understood independently of technology Ultimately Screening the Operatic Stage shows how the technologies of televisual representation employed in opera reinforce its audience's expectations for the genre

The Politics of Ephemeral Digital Media Sara Pesce, Paolo Noto, 2016-05-26 In the age of complex Tv of social networking and massive consumption of transmedia narratives a myriad short lived phenomena surround films and TV programs raising questions about the endurance of a fictional world and other mediatized discourse over a long arc of time The life of media products can change direction depending on the variability of paratextual materials and activities such as online commentaries and forums promos and trailers disposable merchandise and gadgets grassroots video production archives and gaming This book examines the tension between permanence and obsolescence in the production and experience of media byproducts analysing the affections and meanings they convey and uncovering the machineries of their persistence or disposal Paratexts which have long been considered only ancillary to a central text interfere instead with textual politics by influencing the viewers fidelity or infidelity to a product and affecting a fictional world's life expectancy Scholars in the fields of film studies media studies memory and cultural studies are here called to observe these byproducts temporalities their short form and or long temporal extension their nostalgic politics or future projections and assess their increasing influence on our use of the past and present on our temporal experience and consequently on our social and political self positioning through the media
