

## Unit 5: Classification

### Study Guide Answers

STL1: Obtain, evaluate, and communicate information to investigate the diversity of living organisms and how they can be compared scientifically.

**Vocabulary:** Complete the following chart using the definitions obtained in class.

| Word                  | Definition                                                                                                         |
|-----------------------|--------------------------------------------------------------------------------------------------------------------|
| Species               | A group of organisms with similar characteristics who are able to breed and produce a fertile offspring            |
| Diversity             | Variation of living things present in a particular ecosystem                                                       |
| Taxonomy              | The branch of science that deals with classification of organisms                                                  |
| Scientific Name       | A name used by scientists that consists of a genus and species                                                     |
| Dichotomous Key       | A chart used to identify organisms based on a series of choices                                                    |
| Classification        | Sorting something according to similar characteristics; another term for taxonomy                                  |
| Kingdom               | The most broad level of classification; made up of smaller groups called phylum                                    |
| Binomial Nomenclature | A two name system with the first name referring to genus and the second name referring to species; scientific name |
| Carolus Linnaeus      | The "father" of taxonomy; created the binomial nomenclature                                                        |
| Genus                 | A classification grouping, the first part of the scientific name                                                   |

- The language used for scientific name is
  - Latin
- When constructing a dichotomous key, which characteristics do you look for?
  - You look for physical characteristics.
- Compare and contrast animals and plants
  - Animals: multicellular, autotrophs, cannot move, eukaryotic
  - Plants: Multicellular, heterotrophs, can move, eukaryotic
- Sponges look much like plants, but are classified as animals. Why is this?
  - Sponges are heterotrophic (consume food) and not autotrophs like plants
- List the levels of hierarchy from largest to smallest.
  - Domain → Kingdom → Phylum → Class → Order → Family → Genus → Species  
Remember the mnemonic device: "Do Keep Ponds Clean Or Frogs Get Sick!"

ANSWERS TO THE "MAKE YOUR OWN" DICHOTOMOUS KEY WILL VARY!

This book delves into Biology Classification Study Guide Answers. Biology Classification Study Guide Answers is a vital topic that must be grasped by everyone, ranging from students and scholars to the general public. The book will furnish comprehensive and in-depth insights into Biology Classification Study Guide Answers, encompassing both the fundamentals and more intricate discussions.

1. This book is structured into several chapters, namely:
    - Chapter 1: Introduction to Biology Classification Study Guide Answers
    - Chapter 2: Essential Elements of Biology Classification Study Guide Answers
    - Chapter 3: Biology Classification Study Guide Answers in Everyday Life
    - Chapter 4: Biology Classification Study Guide Answers in Specific Contexts
    - Chapter 5: Conclusion
  2. In chapter 1, this book will provide an overview of Biology Classification Study Guide Answers. This chapter will explore what Biology Classification Study Guide Answers is, why Biology Classification Study Guide Answers is vital, and how to effectively learn about Biology Classification Study Guide Answers.
  3. In chapter 2, this book will delve into the foundational concepts of Biology Classification Study Guide Answers. This chapter will elucidate the essential principles that must be understood to grasp Biology Classification Study Guide Answers in its entirety.
  4. In chapter 3, this book will examine the practical applications of Biology Classification Study Guide Answers in daily life. The third chapter will showcase real-world examples of how Biology Classification Study Guide Answers can be effectively utilized in everyday scenarios.
  5. In chapter 4, the author will scrutinize the relevance of Biology Classification Study Guide Answers in specific contexts. This chapter will explore how Biology Classification Study Guide Answers is applied in specialized fields, such as education, business, and technology.
  6. In chapter 5, this book will draw a conclusion about Biology Classification Study Guide Answers. This chapter will summarize the key points that have been discussed throughout the book.
