Better Day Coming Blacks And Equality 1890 2000:

Better Day Coming Adam Fairclough,2002-06-25 From the end of postwar Reconstruction in the South to an analysis of the rise and fall of Black Power acclaimed historian Adam Fairclough presents a straightforward synthesis of the century long struggle of black Americans to achieve civil rights and equality in the United States Beginning with Ida B Wells and the campaign against lynching in the 1890s Fairclough chronicles the tradition of protest that led to the formation of the NAACP Booker T Washington and the strategy of accommodation Marcus Garvey and the push for black nationalism through to Martin Luther King Jr and the Civil Rights Movement of the 1960s and beyond Throughout Fairclough presents a judicious interpretation of historical events that balances the achievements of the Civil Rights Movement against the persistence of racial and economic inequalities *Better Day Coming* Adam Fairclough,2001

The debate on black civil rights in America Kevern Verney,2024-01-16 This book examines the historiography of the African American freedom struggle from the 1890s to the present It considers how and why the study of African American history developed from being a marginalized subject in American universities and colleges at the start of the twentieth century to become one of the most extensively researched fields in American history today There is analysis of the changing scholarly interpretations of African American leaders from Booker T Washington through to Barack Obama The impact and significance of the leading civil rights organizations are assessed as well as the white segregationists who opposed them and the civil rights policies of presidential administrations from Woodrow Wilson to Donald Trump The civil rights struggle is also discussed in the context of wider political social and economic changes in the United States and developments in popular culture

Global Perspectives on Social Capital and Health Ichiro Kawachi,Soshi Takao,S.V. Subramanian,2013-07-06 This book is a follow up to Social Capital and Health 2008 edited by Kawachi Subramanian c cutting edge directions for social capital research including studies of the origins of community social capital the use of social network analysis to investigate social capital and novel methods for investigating the link between social capital and crime Part 2 Social capital and health policy The three chapters in this section highlight implications of social capital for interventions and health policy Part 3 Social capital and health in global perspective The four chapters in this section look at research on social capital and health from a global perspective The authors summarize the empirical studies on social capital and health conducted in each country region or each population group discuss how the concept of social capital translates across different cultures and identify challenges and future directions for research

Black Power in the Bluff City Shirletta Kinchen,2024-01-12 During the civil rights era Memphis gained a reputation for having one of the South s strongest NAACP branches But that organization led by the city s black elite was hardly the only driving force in the local struggle against racial injustice In the late sixties Black Power proponents advocating economic political and cultural self determination effectively mobilized Memphis s African American youth using an array of moderate and radical approaches to protest and change conditions on their campuses and in the

community While Black Power activism on the coasts and in the Midwest has attracted considerable scholarly attention much less has been written about the movement's impact outside these hotbeds In *Black Power in the Bluff City* Shirletta J Kinchen helps redress that imbalance by examining how young Memphis activists like Coby Smith and Charles Cabbage dissatisfied by the pace of progress in a city emerging from the Jim Crow era embraced Black Power ideology to confront such challenges as gross disparities in housing education and employment as well as police brutality and harassment Two closely related Black Power organizations the Black Organizing Project and the Invaders became central to the local black youth movement in the late 1960s Kinchen traces these groups participation in the 1968 sanitation workers strike including the controversy over whether their activities precipitated events that culminated in Martin Luther King's assassination and their subsequent involvement in War on Poverty programs The book also shows how Black Power ideology drove activism at the historically black LeMoyne Owen College scene of a 1968 administration building takeover and at the predominately white Memphis State University where African American students transformed the campus by creating parallel institutions that helped strengthen black student camaraderie and consciousness in the face of marginalization Drawing on interviews with activists FBI files newspaper accounts from the period and many other sources the author persuasively shows not only how an emerging generation helped define the black freedom struggle in Memphis but also how they applied the tenets of Black Power to shape the broader community Shirletta J Kinchen is an assistant professor in the Pan African Studies Department at the University of Louisville

Sidelined Simon Henderson, 2013-03-01 A sociologist and oral historian explores the interwoven histories of sports and civil rights activism in this extensively researched volume In 1968 noted sociologist Harry Edwards established the Olympic Project for Human Rights calling for a boycott of that year's games in Mexico City as a demonstration against racial discrimination Though the boycott never materialized Edwards's ideas struck a chord with athletes and incited African American Olympians Tommie Smith and John Carlos to protest by raising their black gloved fists on the podium after receiving their medals *Sidelined* draws upon a wide range of historical materials and more than forty oral histories with athletes and administrators to explore how the black athletic revolt used professional and college sports to promote the struggle for civil rights in the late 1960s By examining activists successes and failures in promoting racial equality on one of the most public stages in the world Henderson sheds new light on an often overlooked subject and gives voice to those who fought for civil rights both on the field and off

Waiting for Gautreaux Alexander Polikoff, 2007-05-11 Winner 2006 The American Lawyer Lifetime Achievement Award On his thirty ninth birthday in 1966 Alexander Polikoff a volunteer ACLU attorney and partner in a Chicago law firm met some friends to discuss a pro bono case Over lunch the four talked about the Chicago Housing Authority construction program All the new public housing it seemed was going into black neighborhoods If discrimination was prohibited in public schools wasn't it also prohibited in public housing And so began *Gautreaux v CHA* and HUD a case that from its rocky beginnings would roll on year after year decade after decade carrying

Polikoff and his colleagues to the nation's Supreme Court to face then solicitor general Robert Bork establishing precedents for suits against the discriminatory policies of local housing authorities often abetted by HUD and setting the stage for a nationwide experiment aimed at ending the concentration and racialization of poverty through public housing Sometimes Kafkaesque sometimes simply inspiring and never less than absorbing the story of Gautreaux told by its principal lawyer moves with ease through local and national civil rights history legal details political matters and the personal costs and rewards of a commitment to fairness equality and justice Both the memoir of a dedicated lawyer and the narrative of a tenacious pursuit of equality this story itself a critical still unfolding chapter in recent American history urges us to take an essential step in ending the racial inequality that Alexis de Toqueville prophetically named America's most formidable evil

Jim Crow Terminals Anke Ortlepp, 2017-07-01 Historical accounts of racial discrimination in transportation have focused until now on trains buses and streetcars and their respective depots terminals stops and other public accommodations It is essential to add airplanes and airports to this narrative says Anke Ortlepp Air travel stands at the center of the twentieth century's transportation revolution and airports embodied the rapidly mobilizing increasingly prosperous and cosmopolitan character of the postwar United States When segregationists inscribed local definitions of whiteness and blackness onto sites of interstate and even international transit they not only brought the incongruities of racial separation into sharp relief but also obligated the federal government to intervene Ortlepp looks at African American passengers civil rights organizations the federal government and judiciary and airport planners architects and managers as actors in shaping aviation's legal cultural and built environments She relates the struggles of black travelers to enjoy the same freedoms on the airport grounds that they enjoyed in the aircraft cabin in the context of larger shifts in the postwar social economic and political order Jim Crow terminals Ortlepp shows us were both spatial expressions of sweeping change and sites of confrontation over the renegotiation of racial identities Hence this new study situates itself in the scholarly debate over the multifaceted entanglements of race and space

Robert F. Kennedy in the Stream of History Terrence Edward Paupp, 2017-09-29 This assessment of the statesmanship principles and policies of Robert F Kennedy places him in the stream of history to assess what came before his time in political life what happened during that time and what happened to his legacy after his assassination Terrence Edward Paupp evaluates the themes and issues RFK confronted responded to and for which he provided visionary solutions Paupp first chronicles the influence of Franklin D Roosevelt's legacy as a prologue to the New Frontier and Great Society During Robert F Kennedy's time in power both in his brother's administration and on his own in the US Senate he struggled with striking a balance between power and purpose In the years after John F Kennedy's assassination RFK emphasized the need to unite power and purpose national and international concerns ideals and practice Much of this has been ignored Paupp argues by what C Wright Mills called the power elite In assessing RFK's statesmanship Paupp examines his commitments to human and civil rights which linked themes and ideals

within the US to those struggles taking place outside the country Robert F Kennedy brought zeal and passion to these problems by discussing the moral necessity of honouring human dignity while articulating practical solutions policies and programs to structural injustice His legacy remains a beacon of light intelligence and hope in today s world Citizenship and Belonging James Hampshire,2005-04-15 James Hampshire explores the politics of immigration in postwar Britain and shows how ideas of race demography and belonging intertwined to shape immigration policy It is the first book to explain immigration in terms of the politics of demographic governance how states manage and regulate their populations and provides a much needed historical context to current debates In addition the book develops new perspectives on the ways in which racialized ideas influenced politics and policy making
