## **Beyond Slash Burn And Poison Transforming Breast Cancer Stories Into Action:**

Beyond Slash, Burn, and Poison Marcy Jane Knopf-Newman, 2004 Depending on one's vantage point breast cancer can be a very different experience and indeed a very different concern. It is for some a personal struggle; for others it is a disease posing scientific and environmental challenges; and for others it is a highly charged and politicized issue around which policy wars rage. *Beyond Slash, Burn, and Poison* brings a unique perspective to breast cancer by recognizing the overlapping relationship of all these realities. Drawing on the writings of Rachel Carson, Betty Ford, Rose Kushner, and Audre Lorde, this book explores the various ways in which patient-centered texts continue to leave their mark on the political realm of breast cancer and ultimately the disease itself. Ordered chronologically, the selections trace the progression of discussions about breast cancer from a time when the subject was kept private and silent to when it became part of public discourse. The texts included are personal accounts written by women struggling to play an active role in their healing process and at the same time hoping to help others do the same. Knopf-Newman also shows us how these writings eventually changed public opinion and the underlying tendency to blame women for their illness. She argues that changes in medical practice and public policy are linked to textual interventions and makes a case for the politicization of cultural studies of disease through personal and literary expression. Passionately written and well researched, *Beyond Slash, Burn, and Poison* transforms how we think about breast cancer. Rather than facilitating forums for separate discussions, this book brings conversations into dialog with each other. It is essential reading for anyone concerned with breast cancer and its history as well as for those interested in the effect of the environment on public health and the role that literature plays in public policy and medicine. *Beyond Slash, Burn, and Poison* Marcy Jane Knopf-Newman, 2004. Ericksen, 2008-04-07 *Taking Charge of Breast Cancer* incorporates many components of the experience of breast cancer from personal illness to political economic factors. Based on her very extensive data from interviews and content analysis, Ericksen's fine writing offers a powerful narrative approach that focuses on stages of awareness and action. In the process, she eloquently addresses the physical and emotional consequences of breast surgery, changes in body and sexuality, and activism. This is a major contribution to understanding the politics and experience of breast cancer. Phil Brown, Brown University.

*Disrupting Breast Cancer Narratives* Emilia Nielsen, 2019-01-01 Engaging with discussions surrounding the culture of disease, *Disrupting Breast Cancer Narratives* explores politically insistent narratives of illness, resisting the optimism of pink

ribbon culture these stories use anger as a starting place to reframe cancer as a collective rather than an individual problem

**Disrupting Breast Cancer Narratives** discusses the ways emotion gender and sexuality in relation to breast cancer diagnosis and treatment all become complicated relational and questioning Providing theoretically informed close readings of breast cancer narratives this study explores how disruption functions both personally and politically Highlighting a number of contributors in the field of health and gender studies including Barbara Ehrenreich Kathlyn Conway Audre Lorde and Teva Harrison this work takes into account documentary film television and social media as popular mediums used to explore stories of disease

*The Cancer Plot* Reginald Wiebe, Dorothy Woodman, 2024-04-05 In *The Cancer Plot* Reginald Wiebe and Dorothy Woodman examine the striking presence of cancer in Marvel comics Engaging comics studies medical humanities and graphic medicine they explore this disease in four case studies Captain Marvel Spider Man Thor and Deadpool Cancer the authors argue troubles the binaries of good and evil because it is the ultimate nemesis within a genre replete with magic mutants and multiverses They draw from gender theory disability studies and cultural theory to demonstrate how cancer in comics enables an examination of power and responsibility key terms in Marvel's superhero universe As the only full length study on cancer in the Marvel universe *The Cancer Plot* is an appealing and original work that will be of interest to scholars across the humanities particularly those working in the health humanities cultural theory and literature as well as avid comics readers

**Cancer Patients, Cancer Pathways** C. Timmermann, E. Toon, 2012-10-10 Eleven essays by historians and sociologists examine cancer research and treatment as everyday practice in post war Europe and North America These are not stories of inevitable medical progress and obstacles overcome but of historical contingencies cultural differences hope and often disappointed expectations

Fractured Borders Mary K. DeShazer, 2010-02-05 Women have been writing about cancer for decades but since the early 1990s the body of literature on cancer has increased exponentially as growing numbers of women face the searing realities of the disease and give testimony to its ravages and revelations *Fractured Borders* Reading Women's Cancer Literature surveys a wide range of contemporary writing about breast uterine and ovarian

cancer including works by Marilyn Hacker Margaret Edson Carole Maso Audre Lorde Eve Sedgwick Mahasweta Devi Lucille Clifton Alicia Ostriker Jayne Anne Phillips Terry Tempest Williams and Jeanette Winterson among many others DeShazer's readings bring insights from body theory performance theory feminist literary criticism French feminisms and disability studies to bear on these works shining new light on a literary subject that is engaging more and more writers An important and useful book that will appeal to people in a variety of fields and walks of life including scholars teachers and anyone interested in this subject Suzanne Poirier University of Illinois at Chicago A book on a timely and important topic wisely written beyond scholarly boundaries and crossing many theoretical and disciplinary lines Patricia Moran University of California Davis

*The Body* Lisa Jean Moore, Monica Casper, 2014-11-06 This college level handbook offers a comprehensive and accessible overview of sociological and cultural perspectives on the human body Organized along the lines of a standard anatomical textbook delineated by body parts and processes this volume subverts the expected content in favor of providing tools for social and cultural analysis Students will learn about the human body in its social cultural and political contexts with emphasis on multiple contested meanings of the body body parts and systems Case studies examples and discussion questions are both US based and international Advancing critical body studies the book explicitly discusses bodies in relation to race class gender sexuality ability age health geography and citizenship status The framing is sociological rather than biomedical attentive to cultural meanings institutional practices politics and social problems The authors use commonly understood anatomical frames to discuss social cultural political and ethical issues concerning embodiment

Under the Radar Ellen Leopold, 2009 In *Under the Radar* Ellen Leopold shows how nearly every aspect of our understanding and discussion of cancer bears the imprint of its Cold War entanglement The current biases toward individual rather than corporate responsibility for rising incidence rates research that promotes treatment rather than prevention and therapies that can be patented and marketed all reflect a largely hidden history shaped by the Cold War Even the language we use to describe the disease such as the guiding metaphor for treatment fight fire with fire can be traced back to the middle of the twentieth century
