Beyond These Walls Innovators In Ministry:

Leading Beyond the Walls 21293 Adam Hamilton, 2010-09-01 Good pastoral leadership is not a by the numbers proposition. It is a matter of heart and soul of devoting the whole self to the vision God gives for the congregation in which one serves. Yet neither is it purely intuitive; it requires hard, careful thinking about the directions and details of the path down which God calls. When Adam Hamilton became pastor of the United Methodist Church of the Resurrection, its membership consisted of himself and his family. Ten years later, the church averages between five and six thousand worshipers per weekend. Throughout this remarkable period, Hamilton learned many serious lessons about both the broad visions and the specific details of pastoral leadership. Bringing a depth of analytical skills often lacking in visionary leaders, in this book he goes beyond simply telling the story of Church of the Resurrection. He shares the questions that he learned to ask about the largely unchurched population to which Church of the Resurrection has reached out. Further, he demonstrates what he learned by listening to the answers to these questions and how doing so has made possible a number of strategically crucial decisions the church has made. One of those crucial decisions was to make more traditional forms of worship and praise the center of the congregation's life. The result is that the example of Church of the Resurrection offers pastors and church leaders, especially those in mainline denominations, the realization that they need not completely change their liturgical and theological identity in order to reach out to the unchurched. Drawing on his own experience as well as the detailed research on the characteristics of highly successful congregations he undertook during a sabbatical leave, Hamilton offers pastors and other church leaders solid substantive thinking on steps that congregations can take to become centers of vibrant outreach and mission. [The Mainline in Late Modernity](#) Maren Freudenberg, 2017-12-21 In the last fifty years, religion in America has changed dramatically, and Mainline Protestantism is following suit. This book reveals a fundamental transformation taking place in the Evangelical Lutheran Church in America. The ELCA is looking to postdenominational Christianity for inspiration on how to attract people to the pews but is at the same time intent on preserving its confessional liturgical tradition as much as possible in late modernity. As American religion grows increasingly experiential and individualistic, the ELCA is caught between its church heritage and a highly innovative culture that demands participative structures and a personal relationship with the divine. In the midst of this tension, the ELCA is deflating its church hierarchy and encouraging people to become involved in congregations on their own terms while it continues to celebrate its confessional liturgical identity. But can this balance between individual and institution be upheld in the long run? Or will the democratization and pluralization of the faith ultimately undermine the church? This book explores how the ELCA attempts to resist the forces of Americanization in late modernity even as it slowly but surely comes to resemble mainstream American religion more and more. **Youth Beyond the Developmental Lens** Wesley W. The wall separating the cloister from the surrounding world is one of the most distinctive features of a monastery it marks out the community of monks or friars and defines the very essence of a cloister However this wall was never completely impenetrable Those inside interacted with those outside in churches in towns and villages or even in the cloisters It is this permeability of the cloister wall what constitutes the central motif of this book Using the example of the Franciscan Friary of St Bernardino in Olomouc nowadays in the Czech Republic it analyses the interaction of the friars and the urban community It focuses on the 17th and 18th centuries when following the suppression of non Catholic confessions Roman Catholicism became the only official religion and the city became one of major ecclesiastical centres in the Habsburg Lands The Franciscans significantly contributed to the formation of the new Catholic confessional culture in the city yet they were just one of the many agents They were forced to constantly re negotiate their position and to compete with other religious institutions The mendicant character of the order eventually proved to be their main advantage Although the life in strict poverty brought many complications it also greatly enhanced the prestige of the friars Simultaneously it motivated them to search for new and efficient ways to address the people Begging for alms thus became one of the main forms of interaction between the friary and the local community allowing the mendicants to extend their reach significantly to emphasise their uniqueness and importance and to patiently build their own network of ties to the local population The story of the friary of St Bernardino in Olomouc demonstrates that early modern Roman Catholicism was not built unilaterally from the top down but was instead the result of synergy and even conflicts between many actors *Beyond the Wall* Elizabeth Pond,2010-12-01 *Beyond the Wall* is the first book in either
