Stephen H. Goode, 1993 **Currents in the Interpretation of Paul** Neil Elliott, 2024-09-05 The apostle Paul has long been championed or criticized as a Christian thinker as a brilliant theological genius or an enthusiastic convert who spun arguments to justify his new allegiances In these essays Neil Elliott engages some of the most provocative currents in contemporary scholarship including Paul and the nature of violence the presumptions of religious cultural or national innocence in particular interpretations of the apostle the recent enthusiasm for Paul in some streams of Marxist thought competing construals of economic realities in Paul's day and our own and questions surrounding Paul's legacy today

William H. Beezley, Judith Ewell, 1987 This unique collection emphasizes the human element in the study of Latin American history by focusing on the lives of twenty three men women and children Though they differ widely from each other in background and circumstance these individuals share a common experience all are caught up in some way by the profound sometimes devastating changes that accompany the modernization of a traditional society Their stories bring vividly to life

the impact that revolution economic upheaval urbanization destruction of community life and the disruption of family and gender roles have on ordinary people These studies also bring out the various ways often creative and courageous in which Latin Americans have coped with the fortunes and vicissitudes of progress Academic Life and Labour in the New University Ruth Barcan, 2016-03-23 What does it mean to be an academic today What kinds of experiences do students have and how are they affected by what they learn Why do so many students and their teachers feel like frauds Can we learn to teach and research in ways that foster hope and deflate pretension *Academic Life and Labour in the New University Hope and Other Choices* addresses these big questions discussing the challenges of teaching and researching in the contemporary university the purpose of research and its fundamental value and the role of the academy against the background of major changes to nature of the university itself Drawing on a range of international media sources political discourse and many years professional experience this volume explores approaches to teaching and research with special emphasis on the importance of collegiality intellectual honesty and courage With attention to the intersection of large scale institutional changes and intellectual shifts such as the rise of transdisciplinarity and the development of a pluralist curriculum this book proposes the pursuit of more ethical compassionate and critical forms of teaching and research As such it will be of interest not only to scholars of cultural studies and education but to all those who care about the fate of the university as an institution including young scholars seeking to join the academy *Believing History* Richard Lyman Bushman, 2007-02-13 The eminent historian Richard Bushman here reflects on his faith and the history of his religion By describing his own struggle to find a basis for belief in a skeptical world Bushman poses the question of how scholars are to write about subjects in which they are personally invested Does personal commitment make objectivity impossible Bushman explicitly and at points confessionally explains his own commitments and then explores Joseph Smith and the Book of Mormon from the standpoint of belief Joseph Smith cannot be dismissed as a colorful fraud Bushman argues nor seen only as a restorer of religious truth Entangled in nineteenth century Yankee culture including the skeptical Enlightenment Smith was nevertheless an original who cut his own path And while there are multiple contexts from which to draw an understanding of Joseph Smith including magic seekers the Second Great Awakening communitarianism restorationism and more Bushman suggests that Smith stood at the cusp of modernity and presented the possibility of belief in a time of growing skepticism When examined carefully the Book of Mormon is found to have intricate subplots and peculiar cultural twists Bushman discusses the book's ambivalence toward republican government explores the culture of the Lamanites the enemies of the favored people and traces the book's fascination with records translation and history Yet *Believing History* also sheds light on the meaning of Joseph Smith and the Book of Mormon today How do we situate Mormonism in American history Is Mormonism relevant in the modern world *Believing History* offers many surprises Believers will learn that Joseph Smith is more than an icon and non believers will find that Mormonism cannot be summed up with a simple label But wherever

readers stand on Bushman's arguments he provides us with a provocative and open look at a believing historian studying his own faith Selected Political Writings Stuart Hall, 2017-02-02 Selected Political Writings gathers Stuart Hall's best known and most important essays that directly engage with political issues Written between 1957 and 2011 and appearing in publications such as *New Left Review* and *Marxism Today* these twenty essays span the whole of Hall's career from his early involvement with the New Left to his critique of Thatcherism to his later focus on neoliberalism Whether addressing economic decline and class struggle the Cuban Missile Crisis or the politics of empire Hall's singular commentary and theorizations make this volume essential for anyone interested in the politics of the last sixty years **Paul against the Nations** Neil Elliott, 2023-11-10 Some of the most heated contests around the apostle Paul today concern the effort to understand him wholly within Judaism and the effort to interpret him over against the culture and ideology of the early Roman Empire Here Neil Elliott argues that these two conversations belong together and must be resolved together by understanding Paul as a Jew living out Israel's ancient hopes under the pressures of Roman imperial power **The Athenaeum**, 1912
