How to Be Creative in Textile Art Julia Triston, Rachel Lombard, 2013-10-18 It's a question asked by many budding textile artists how can I be more creative

You've got a few ideas and know some techniques but you're not sure how to get started or make your work hang together. This book shows you how. It explains the creative process from the very beginning where to find inspiration and how to harness those ideas, how to gather source material, how to pull together what you have. The authors then take you on a journey to develop a design. Learn how to put elements together to make a cohesive whole and develop a theme, learning established design rules along the way. Part Three, *Moving into Stitch*, gives you a range of techniques and easy experiments with which to turn your design into stitched textile work. From choosing what fabrics to use to layering, creating texture and adding embellishment, it covers the key techniques to try. This is a terrific book for those starting out in textiles who really do want to be as creative as they can possibly be. *Resilient Stitch* Claire Wellesley-Smith, 2021-04-15. Following on from her textile hit *Slow Stitch*, author Claire Wellesley-Smith considers the importance of connection and ideas around wellbeing when using textiles. Claire explores textiles in the context of individuals and communities as well as practical ideas around thinking through making, using resonant materials and extending the life of pieces using traditional and non-traditional methods. Contemporary textile artists using these themes in their work feature alongside personal work from Claire and examples from community-based textile projects. The book features some of the very best textile artists around, esteemed American fiber artists and the doyenne of textiles, Alice Kettle. Resilient fabrics that can be manipulated, stressed, withstand tension and be made anew are recommended throughout the book, as well as techniques such as layering, patching, reinforcing, re-stitching and mending, plus ideas for the inclusion of everyday materials in your work. There's an exploration of ways to link your emotional health with your textile practice, and *Community* suggests ways to make connections with others in your regular textile work. *Landscape* has a range of suggestions and examples of immersing your work in the local landscape, a terrific way to find meaning in your work and a sense of place. Finally, there is a moving account of one textile community's creative response to the 2020 coronavirus pandemic. The connection between wellbeing and the creation of textiles has never been stronger, and as a leading exponent of this campaign, Claire is the perfect author to help you find more than just a finished textile at the end of a project. *Drawn to Stitch* Gwen Hedley, 2010-10-12.
