Book And Complexity Tax Simplification Experiences Around:

The Complexity of Tax Simplification Simon James, Adrian Sawyer, Tamer Budak, 2016-04-29 Simplicity in taxation has considerable potential advantages However attempts to simplify tax systems are only likely to be successful and enduring if they take account of the reasons why taxation is complex There are strong pressures on tax systems to accommodate a range of important factors as well as complex and changing national and international environments within which modern tax systems have to operate This book explores the experiences of simplification in a range of countries and jurisdictions The authors analyse a range of manifestations of simplification including tax systems tax law taxpayer communications and tax administration They also review the longer term or more fundamental approaches to simplification suggesting that in order to strike the optimum balance between simplicity and the aims of a tax system in terms of efficiency and equity a range of complex environmental factors must all be taken into account With chapters reflecting on experiences from Australia China Canada Malaysia New Zealand Russia South Africa Thailand Turkey the UK and the US the authors illustrate differences between jurisdictions and the changing environment in which they operate This book addresses the crucial balance between simplicity and the other objectives of tax design and reform and suggests that reformers of the tax system should include simplicity as one of the key evaluators of any design or reform proposal *Handbook of Behavioural Economics and Smart Decision-Making* Morris Altman, 2017-05-26 This Handbook is a unique and original contribution of over thirty chapters on behavioural economics examining and addressing an important stream of research where the starting assumption is that decision makers are for the most part relatively smart or rational This particular approach is in contrast to a theme running through much contemporary work where individuals behaviour is deemed irrational biased and error prone often due to how people are hardwired In the smart people approach where errors or biases occur and when social dilemmas arise more often than not improving the decision making environment can repair these problems without hijacking or manipulating the preferences of decision makers This book covers a wide range of themes from micro to macro including various sub disciplines within economics such as economic psychology heuristics fast and slow thinking neuroeconomics experiments the capabilities approach institutional economics methodology nudging ethics and public policy [Tax simplification - An African Perspective](#) Edited by Chris Evans, Riël Franzsen, Elizabeth (Lilla) Stack 2019 Edited by Chris Evans, Riël Franzsen, Elizabeth (Lilla) Stack, 2019-01-01 Tax simplification An African Perspective Edited by Chris Evans Riël Franzsen Elizabeth Lilla Stack 2019 ISBN 978 1 920538 96 5 Pages 347 Print version Available Electronic version Free PDF available About the publication Why are tax systems so complex and what are the causes and consequences of such complexity The simplification of tax systems is one of the most important issues faced today in worldwide efforts to modernise and strengthen government finance and revenue raising capacities Nowhere is it more important than throughout the rapidly emerging economies of the dynamic African region This volume brings together contributions in this field from a conference held in South Africa in

October 2018 and provides a unique synthesis of knowledge and understanding gained from the specialist expertise and diverse backgrounds brought to the tax simplification debate by those authors. Featured topics include Taxpayers rights to simplicity, The African experience of tax simplification, Simplification trends among small and medium sized entities, Pension tax simplification, Sources of complexity in value added taxation, Simplification of recurrent property taxes, Complexity and approaches to international taxation, Complexity and taxation of multinational enterprises, Lessons from overseas. The analysis of these topics includes timely and relevant perspectives from the experience in other jurisdictions including Australia, Canada, New Zealand, the United Kingdom and the United States. The volume will be an essential reference for researchers and others interested in the field from academia, government, legal and accounting practice and public policy organisations in African and other countries worldwide.

Table of Contents: Preface, Foreword, Tax Simplification in the United Kingdom: Some Personal Reflections, John Whiting, Contributors, Introduction, Elizabeth Lilla Stack, Chris Evans and Ri l Franzsen, Tax Complexity and Tax Simplification: A Critical Review of Concepts and Issues, Binh Tran Nam, Annet Wanyana Oguttu and Kyle Mandy, The Taxpayers Right to Tax Simplicity in South Africa and the United States, Carika Fritz and Nina E Olson, The Role of the Office of Tax Simplification in the United Kingdom and Lessons for Other Countries, Yige Zu and Lynne Oats, An Analysis of the Tax Simplification Initiatives for Pension Provision in the United Kingdom and South Africa, Bernadene de Clercq, Andy Lymer and Chris Axelson, Simplification Lessons from New Zealand, Adrian Sawyer, Marina Bornman and Greg Smith, Legal Uncertainty in the South African VAT, Marius van Oordt and Richard Krever, Simplifying Recurrent Property Taxes in Africa, Ri l Franzsen, Abdallah Ali Nakyea and Adams Tommy, Statutory and Effective Complexity for Individual Taxpayers in South Africa, Sharon Smulders, Karen Stark and Deborah Tickle, Small and Micro Businesses: Case Studies on the Complexity of Simplified Schemes, Heinrich Dixon, Judith Freedman and Wollela Abehodie Yesegat, Tax Complexity for Multinational Corporations in South Africa: Evidence from a Global Survey, Thomas Hoppe, Reyhaneh Safaei, Amanda Singleton and Caren Sureth Sloane, International Tax Simplification in South Africa through Managing Substantive Complexity and Improving Drafting Efficiency, Jinyan Li and Teresa Pidduck, Bibliography, Index.

Corruption from a Regulatory Perspective Maria De Benedetto, 2021-09-23. This book seeks to enrich and in some cases reverse current ideas on corruption and its prevention. It is a long held belief that sanctions are the best guard against corrupt practice. This innovative work argues that in some cases sanctions paradoxically increase corruption and that controls provide opportunities for corrupt transactions. Instead it suggests that better regulation and responsive enforcement, not sanctions, offer the most effective response to corruption. Taking both a theoretical and applied approach, it examines the question from a global perspective, drawing on in particular a regulatory perspective to provide a model for tackling corrupt practices.
