Farm Business Management Peter L. Nuthall, 2021-11-29 Management research has shown successful farmers have quite distinct personal characteristics

which most farmers have seldom thought about Farmers who are less successful tend to have processes and systems which are likely to be biased The aim of this book is to help all farmers discover more about these personal attributes that impinge on the success of their management and to show how their attitudes and personal resources can be improved This book is not a straightforward textbook Rather it tells the story of a group of farmers who take part in an expert guided experiment designed to test approaches to improving management skill The group meet at each other s farms to learn about their issues and develop solutions to improving what is called their management style with the aim of removing any identified decision system biases The book covers issues like optimal decision rule systems and how they can become second nature

Subtle Agroecologies Julia Wright, 2021-06-29 This book is about the invisible or subtle nature of food and farming and also about the nature of existence Everything that we know and do not know about the physical world has a subtle counterpart which has been scarcely considered in modernist farming practice and research If you think this book isn t for you if it appears more important to attend to the pressing physical challenges the world is facing before having the luxury of turning to such subtleties then think again For it could be precisely this worldview the one prioritises the physical material dimension of reality that helped get us into this situation in the first place Perhaps we need a different worldview to get us out This book makes a foundational contribution to the discipline of Subtle Agroecologies a nexus of indigenous epistemologies multidisciplinary advances in wave based and ethereal studies and the science of sustainable agriculture Not a farming system in itself Subtle Agroecologies superimposes a non material dimension upon existing materially based agroecological farming systems Bringing together 43 authors from 12 countries and five continents from the natural and social sciences as well as the arts and humanities this multi contributed book introduces the discipline explaining its relevance and potential contribution to the field of Agroecology Research into Subtle Agroecologies may be described as the systematic study of the nature of the invisible world as it relates to the practice of agriculture and to do this through adapting and innovating with research methods in particular with those of a more embodied nature with the overall purpose of bringing and maintaining balance and harmony Such research is an open minded inquiry its grounding being the lived experiences of humans working on and with the land over several thousand years to the present By reclaiming and reinterpreting the perennial relationship between humans and nature the implications would revolutionise agriculture heralding a new wave of more sustainable farming techniques changing our whole relationship with nature to one of real collaboration rather than control and ultimately transforming ourselves

Six Inches of Soil Molly Foster, Priya Kalia, Jeremy Toynbee, 2024-04-30 How has it come to this point in our history that we hardly value the food we eat and the soil that it s grown in How is it that we care so little how food production impacts animals and the environment Industrial farming has transformed Britain s rural landscapes increasing crop yields and reducing hunger Yet this has all come at a terrible ecological cost It is both a miracle and a disaster Six Inches of Soil the film and this companion book is the inspiring story of three British farmers standing up

to the industrial food system and transforming the way they produce food to heal the soil benefit our health and provide for local communities Six Inches of Soil is a story of courage vision and hope This book is not just for farmers Reconnecting with our food and regenerating our soils ourselves and our communities benefits everyone and needs everyone to be involved We want to inspire farmers with the confidence and practical know how to adopt regenerative farming approaches We want to give consumers the impetus and information to rethink their food choices This book and the film are closely related but stand on their own In these pages you will find detailed chapters on each of the three farmers that provide replicable case studies and inspiration Additionally there are chapters examining the problems with the current agri food system and proposing solutions and a vision for the future Recognised experts explain agroecological farming systems and soil science consider the issues of land use greenwashing subsidies food security and provide examples of agroforestry applications and farm enterprise stacking and diversification Their three stories are inspiring guiding and frustrating Allow yourself to be inspired to be guided and to turn your frustration in to action 5m Books No-Till Intensive Vegetable Culture Bryan O'Hara,2020-02-21 No till farming is the new best practice for preventing soil erosion building soil biology and providing growing conditions for vibrant healthy crops But for organic vegetable farmers and gardeners and any farmer who wants to avoid herbicide use the seemingly insurmountable dilemma with no till has been how to control weeds without cultivating In this thorough practical guide expert organic farmer Bryan O Hara provide the answers O Hara systemically describes the growing methods he developed and perfected during a multi year transition of his Connecticut certified organic vegetable farm to a no till system O Hara asserts that this flexible nature friendly agricultural methodology is critical to vegetable farming success both economically as well as to maintain the health of the soil and the farm ecosystem His methodology has proven itself over years of cropping on his home farm Tobacco Road Farm as well as other farms in his region often with stunning results in yields quality and profitability In No Till Intensive Vegetable Culture O Hara delves into the techniques he has experimented with and perfected in his 25 years of farming including making and using compost culturing and applying indigenous microorganisms to support soil biology reduced tillage systems no till bed preparation techniques seeding and transplanting methods irrigation use of fertilizers including foliar feeds pest and disease management weed control season extension and harvest and storage techniques O Hara also explores the spiritual understanding of the nuances of the soil and a farm ecosystem and how that influences practical production decisions such as when to plant water and fertilize a crop O Hara goal is to pass on his knowledge to those who feel the impulse to make their livelihood in harmony with nature requiring a relatively small land base of a few acres or less and little capital investment in mechanization Home gardener and large scale farmers will also find value in his methods This manual will provides farmers with an advanced agricultural methodology not available in any other single book on organic vegetable production a methodology that will allow farmers to continue to adapt to meet future challenges A Groundhog Career Dr. Helmut Schuster,Dr. David Oxley,2025-03-17 We all
