Books For 11 Year Old Boys:

Children's Reading Lewis Madison Terman, Margaret Lima, 1925 **Children's Reading Choices** Martin Coles, Christine Hall, 2002-01-04 Children's Reading Choices discusses the reading habits of children aged between 10 and 14. The book reports the findings of the Children's Reading Choices project conducted by the authors from the University of Nottingham and the largest national survey of children's reading choices since the 1970s. The book includes reports and discussion on girls and boys reading preferences and the differences between their reading habits, the place of series books, teenage magazines and comics in children's reading, the most popular authors and titles at different ages, purchasing habits and library use.

I'm an 11 Year-Old Boy and I Am Brilliant Your Name Here, 2019-06 Journal writing is an excellent activity for children. Kids here's a great place to conserve memories of your child as a eleven year old with his thoughts and drawings on paper and in one place. And what's more when they reach adulthood you can use this book to blackmail him or at least embarrass him in front of his fiancé. The top half of each page is blank and the bottom half is lined. This book makes fine birthday gift that encourages good writing and drawing practice in young impressionable minds.

EBOOK: Being Boys; Being Girls: Learning Masculinities and Femininities Carrie Paechter, 2007-07-16 What is it like being a boy or a girl? How do boys and girls learn to be men and women? How do families, schools and children's peer groups influence the ways in which children think of themselves as male and female? Being Boys, Being Girls explores how boys and girls learn what it is to be male and female. Drawing on a wide range of studies from around the world, the book examines how masculinities and femininities are developed and understood by children and young people in families, in schools and through interaction with their peers. One of the key concepts underlying this book is that our identities are constructed and performed in particular ways which help us to understand who we are and how we fit in with the world. This means that these identities are constantly changing according to where we are, what we are doing and whom we are with. Who we are and what we think about ourselves only makes sense in relation to what is going on around us. The author provides a clear explanation of the underpinning idea that children's understandings of gender are developed and constructed in local communities of masculinity and femininity practice. She brings together research on children and their construction and understanding of gender across the 0-18 age range and includes explicit suggestions for strategies and interventions. This book is essential reading for students and academics in childhood education and gender studies and for those with an interest in gender development and the construction of masculinities and femininities.
