Behavioural Adaptation and Road Safety Christina Rudin-Brown,Samantha Jamson,2013-05-24 Despite being an accepted construct in traffic and transport psychology the precise nature of behavioural adaptation including its causes and consequences has not yet been established within the road safety community A comprehensive collection of recent literature Behavioural Adaptation and Road Safety Theory Evidence and Action explores behavioural adaptation in road users It examines behavioural adaptation within the context of historical and theoretical perspectives and puts forth tangible and practical solutions that can effectively address adverse behavioural adaptation to road safety interventions before it occurs Edited by Christina Rudin Brown and Samantha Jamson with chapters authored by leading road safety experts in driver psychology and behaviour the book introduces the concept of behavioural adaptation and details its more relevant issues It reviews the definition of behavioural adaptation that was put forward by the OECD in 1990 and then puts this definition through its paces identifying where it may be lacking and how it might be improved This sets the context for the remaining chapters which take the OECD definition as their starting points The book discusses the various theories and models of behavioural adaptation and more general theories of driver behaviour developed during the last half century It provides examples of the evidence for behavioural adaptation instances in which behavioural adaptation arose as a consequence of the introduction of safety countermeasures The book then focuses on the internal human element and considers countermeasures that might be used to limit the development of behavioural adaptation in various road user groups The book concludes with practical tools and methodologies to address behavioural adaptation in research and design and to limit the potential negative effects before they happen Supplying easy to understand accessible solutions that can be implemented early on in a road safety intervention s design or conception phase the chapters represent the most extensive compilation of literature relating to behavioural adaptation and its consequences

since the 1990 OECD report The book brings together earlier theories of behavioural adaptation with more recent theories in the area and combines them with practical advice methods and tangible solutions that can minimise the potential negative impact of behavioural adaptation on road user safety and address it before it occurs It is an essential component of any road safety library and should be of particular relevance to researchers practitioners designers and policymakers who are interested in maximizing safety while at the same time encouraging innovation and excellence in road transport related design

H.P. Lovecraft's The Colour Out of Space (Manga) ,2025-07-01 H P Lovecraft s horror story rendered in chilling detail by modern manga horror master Gou Tanabe The complete story in one volume featuring a tip in title page in metallic gold ink and four pages in color Even the folk of Arkham are frightened of a valley west of town blighted and deformed by something that fell from space a twisting spectral hue In 1927 a surveyor examining a site for a new reservoir arrives at the bottom of a desolate valley in rural Massachusetts a place spoken of in fear even by the inhabitants of witch haunted Arkham for in the past they say there were strange days there The surrounding landscape is weirdly tangled and overgrown but at the very center of the isolation are five acres where nothing lives and nothing remains but a fine gray ash unstirred by the wind What turned this farmland into a sterile blasted heath It happened long ago the visitor learns from aged survivor Ammi Pierce when in 1882 a visitor fell out of a clear blue sky trailing smoke like a dragon Soon scientists from Miskatonic University arrived at Nahum Gardner s farm where the meteorite landed if indeed it was a meteorite for the strangely plastic object refused to cool after its descent seemed to gradually shrink and in the laboratory samples of it faded away slowly into nothingness But not before revealing under analysis strange shining radiance unlike any known element of the spectrum What had been a mystery to the professors gradually becomes a horror for the Gardner family as first bizarre lightning disintegrates what remains of the cosmic visitor and then their crops begin to come in strangely fruits big and bountiful but bitter and repugnant to eat Then the unnatural blight spreads to the animals and finally to the minds and bodies of the Gardners twisted by the colour out of space I love H P Lovecraft It would be great to adapt him as a serialized manga but I actually saw Gou Tanabe create a great adaption of H P Lovecraft s stories Afterwards I ended up not doing it because I thought I wouldn t be as good as Gou s version Junji Ito Uzumaki Black Paradox
