Brfplusa Business Rule Management For Abapa Applications:

BRFplus Carsten Ziegler,Thomas Albrecht,2011 In modern architectures business rules are modeled and maintained in central engines But how can you modify existing rules or develop your own How can these rules be integrated into the applications BRFplus is the tool of choice for developing business rules in ABAP This book introduces BRFplus in all its aspects It explains the tool s architecture and how its rules are structured You will learn how to modify and develop rules how to incorporate them into your own landscape and how to extend BRFplus Including extensive examples and tutorials this book is a one stop resource for developers as well as business analysts 1 BRFplus Walk Through and Tutorial Get started with a complete tour through all Workbench tools follow the development cycle and learn how to create applications in the Workbench or via the API 2 Objects Learn how to define use and link objects to each other and benefit from a comprehensive reference for all object types such as expressions actions and more 3 Tools Deployment and Administration The book covers the entire development cycle Imports and exports transports administration as well as remote and local scenarios are all dealt with in detail 4 Advanced Topics Once your applications are deployed you ll want to tune them Find out how to enhance performance trace processing extend BRFplus functionality and integrate it into custom user interfaces Highlights Business rules and business rules management BRM Object management Objects functions data objects rules and rulesets expression and action types Tools and administration Advanced topics performance tracing extending BRFplus UI integration Deployment and methodology

Transportation Charge Management in SAP S/4HANA Rajen Iyer,Hariharan Subramanian,2021-11-19 Interested in learning the secrets of controlling and reducing transportation costs This book will expertly guide you through Transportation Charge Management in SAP S 4HANA highlighting the most important aspects of setting up Charge Management Learn how to set up agreements contracts with business partners and provide detailed rate structures Dive into Charge Management master data including master data objects agreements rate structures rate tables dimensions and determinations Explore how different types of agreements are set up and how they are linked to the master data objects as well as key integration points Learn how to perform strategic freight procurement strategic freight sales in order to reach the best agreement possible for your organization Understand how charges are calculated on the various business documents Take a detailed look at the settings and configuration required to accurately calculate charges Explore practical examples including scenarios that you might encounter in your logistics operations With practical examples tips and screenshots this book covers Transportation Charge Management processes Charge Management master data Strategic freight procurement and sales Settings and configuration

Digital business transformation in operation(s) Frank Luyckx,2015-10-21 The success of companies depends on the speed of implementing their business model innovations Innovating a business model is relatively easy Osterwalder BMC can be applied In order to continuously align the business model innovations with E2E processes ICT template solutions and organizational performance metrics the Business

Transformation BT lifecycle can help This book shows use cases within companies like Philips ERIKS Unilever Achmea and Friesland Campina Furthermore SAP explains how Business Process Management and Internet of Things can enhance business innovations This book provides information on how to set up an BT roadmap using best practices how to define the governance model and determine ROI The BT lifecycle can help to improve the organizational agility optimizing the project portfolio and reducing the complexity of the ERP template thereby increasing the success rate of digital business transformation projects within the operational processes Look at preview [Transportation Management with SAP TM 9](#) Jayant Daithankar,Tejkumar Pandit,2014-08-07 The implementation of a TMS solution is a highly complex and mission critical project If executed correctly a good TMS can deliver a number of benefits to the organization in terms of optimization greater efficiency reduced errors and improved revenue through accurate invoicing However a number of projects fail to realize these benefits for a host of reasons such as an incorrect product selection over customization of the system and lack of detailed processes The evaluation and selection of the right transportation management system is a very critical step in the successful implementation of a TMS product as well as ensuring that the organization is able to realize the benefits expected from the system Transportation Management with SAP TM 9 is a guide for CIO CXOs evaluating options for various transportation management solutions available in the market and helps in appropriate decision making before committing investment A proven evaluation framework and guidance provided in the book can help decision makers with product selection and help to create a business case for management approval and design a future roadmap for the organization The book provides a comprehensive understanding of what SAP transportation management is and is useful for teams involved in TM Implementation and roll outs to ensure preparedness The book explains end to end freight life cycle processes functional system landscape implementation challenges and post go live precautions required to optimize investments in SAP TM Transportation Management with SAP TM 9 also acts as a step by step implementation guide with details of configuration required to set up a TM9 system This book also covers the upgrade of SAP TM8 to SAP TM9 which will be useful for existing clients who are on TM 8 Nonavailability of SAP TM skilled resources is a major challenge faced by organizations and the book provides a detailed competency building plan along with skill set requirements to create a competent and trained workforce to manage transformation The current book available in the market on SAP TM is based on Version 6 release which does not cover air freight processes Our book covers end to end air freight configuration scenarios for logistic companies *Business transformation in operation (s)* Frank Luyckx,2015-02-04 The success of companies depends on the speed of implementing their business model innovations Innovating a business model is relatively easy Osterwalder BMC can be applied In order to continuously align the business model innovations with E2E processes ICT template solutions and organizational performance metrics the ADM Business Transformation BT lifecycle can help This book shows use cases within companies like Philips ERIKS Unilever Achmea and Friesland Campina Furthermore SAP explains how Business Process Management
