

Les états financiers reflètent la performance et la situation financière d'une entreprise. Pour les sociétés cotées, soumises à la pression des marchés financiers, les besoins d'information des apporteurs de capitaux, actionnaires et créanciers sont privilégiés. Toutefois, tous les apporteurs de capitaux n'ont pas les mêmes besoins d'information. Les créanciers s'efforcent de déterminer le risque de défaillance de l'entreprise par l'analyse de sa situation financière et des **équilibres financiers** fondamentaux qui découlent de ses états financiers (section 1). L'analyse est complétée par la lecture du tableau de flux de trésorerie (section 2) et l'analyse des équilibres fondamentaux (section 3). Enfin, les actionnaires sont aussi intéressés par la rentabilité d'un investissement. Ils cherchent à identifier un certain nombre d'indicateurs pour évaluer la performance de leur entreprise (section 4).

1. Analyse des équilibres financiers fondamentaux

L'analyse financière opérée par un créancier consiste en un examen des équilibres financiers fondamentaux. Elle donne une première idée du risque financier représenté par l'entreprise. Le risque essentiel que les créanciers s'efforcent d'estimer est le risque de faillite. En effet, une entreprise peut être amenée à fermer non pas en raison d'un résultat déficitaire, mais par manque de trésorerie. L'étude de l'équilibre financier – reposant sur le besoin en fonds de roulement (BFR) et le fonds de roulement (FR) – permet de porter un jugement sur la trésorerie de la firme, sa politique financière et, par conséquent, sur les faits générateurs de risque de défaillance.

1.1. Besoin en fonds de roulement

L'analyse des **besoins en fonds de roulement** détermine les besoins de trésorerie à court terme de l'entreprise pour le financement de ses activités courantes. Il convient de distinguer les ressources financières selon qu'elles sont permanentes (fonds propres et dettes financières) ou courantes (dettes d'exploitation). Parallèlement, les besoins de financement permanents (actifs non courants) doivent être différenciés des besoins de financement courants (stocks et créances) (voir figure 10.1).

Équilibre financier : situation dans laquelle les ressources financières à long terme sont égales aux actifs à long terme.

BFR : le besoin en fonds de roulement (BFR) est la part, à une date donnée, des besoins ou emplois cycliques qui n'est pas financée par les ressources cycliques (cycliques s'opposant à stables).

ABC de l'argumentation, 2e édition Marie-Josée Drolet, Mireille Lalancette, Marie-Ève Caty, 2019-01-23T00:00:00-05:00 Au quotidien les professionnels de la santé ont convaincre différentes personnes ou communautés qu'il s'agisse de patients de collègues de supérieurs ou de partenaires de la pertinence de leurs points de vue Cet ouvrage explique ces professionnels les principes de la rhétorique et diverses stratégies argumentatives tout en soulignant les avantages de les utiliser dans le cadre de leur pratique Parfois considérer comme l'art de persuader ou d'écouter avec style la rhétorique est ici envisagée comme l'art d'argumenter pour convaincre par l'usage de la logique logos le recours aux motions pathos et une réflexion éthique sur le rôle de l'orateur ethos Cette seconde édition de l'ABC de l'argumentation a

entièrement revue. Alors que les éléments théoriques de la première partie de l'ouvrage sont demeurés sensiblement les mêmes que ceux de la première édition, les éléments pratiques de la deuxième partie ont été pour leur part significativement bonifiés. Les auteurs ont notamment développé de nouveaux exemples pour présenter certains arguments de la méthode I D A L E. Trois nouveaux chapitres enrichissent également cette nouvelle édition qui offre un plus grand nombre d'outils aux professionnels de la santé pour soutenir leurs revendications. Ceux-ci s'articulent autour du thème de l'advocacy et illustrent la manière dont les principes rhétoriques et les stratégies argumentatives peuvent être mis au service de la défense des droits des besoins ou des intérêts des patients et des professionnels de la promotion des emplois en santé ainsi que de l'amélioration des soins et des services dans ce milieu. Ce livre se veut un incontournable dans l'enseignement de l'argumentation en santé et dans d'autres domaines. Il entend aussi outiller toute personne qui souhaite convaincre car les principes et stratégies qu'il propose s'appliquent toute situation d'argumentation.

Site internet : audit et stratégie Collectif, Sébastien Rouquette, 2017-10-31

Juger de l'efficacité d'un site web, d'un blog ou d'une page Facebook, comprendre ses forces et ses faiblesses, décider d'une stratégie de communication numérique cohérente, une nécessité pour toute organisation qu'il s'agisse d'une entreprise, d'une association sportive ou d'une mairie. Outil méthodologique détaillé et illustré, cet ouvrage pose les questions fondamentales permettant d'évaluer la performance d'un site web : quel est le discours implicite de la page d'accueil ? Comment terminer les stratégies de fidélisation et de rentabilisation des contenus mis en ligne ? Comment analyser l'interactivité du site ? son architecture, son graphisme, son nonciation, sa stratégie ditoriale ? Rédigé par des spécialistes universitaires reconnus de l'analyse de sites web, il propose sept méthodologies complémentaires : communicationnelle, stratégique, informatique ditoriale, stylistique, sociologique et économique, et les illustre sur des terrains divers allant de sites touristiques internationaux, ceux de grands médias français en passant par des sites d'institutions publiques, d'entreprises commerciales ou encore d'associations environnementales. Un guide pratique pour améliorer rapidement sa communication web.

Pour les étudiants en Masters du multimédia et de l'internet, MMI en Information Communication en Sciences de gestion et en écoles de commerce pour les professionnels de la communication et du marketing en ligne.
