volatility and geopolitical uncertainty The Boardroom analyses how Asian boardroom leaders steer organizations and how boards can be more effective Boardmembers appointed and entrusted by their owners are guardians with a fiduciary duty to safeguard an organization and prepare it for a viable and sustainable future Business managers investors academics students and those interested in doing business in Asia will benefit from The Boardroom s practical insights and recommendations to improve corporate governance and strengthen competitive advantage The Boardroom a book written by my predecessor Dr Tanri Abeng and his co author Prof Dr Peter Verhezen who both combine practical experience and academic in depth research gives a good overview of what can and should be expected from a board The authors describe the generic accepted governance principles but rightfully claim the need to translate them into specific rules and regulations that make sense for Indonesian and other Asian companies Erick Thohir The Minister of State Owned Enterprises of the Republic of Indonesia Understanding the dynamics of successful organizations is like being on a quest It probably never ends Organizations are open and social systems that cannot be managed or governed using simple theories and recipes Hence this book invites you to start your own leadership journey and become more mindful of your role in the functioning of a company Prof Dr Koen Vandenbempt Dean of the Faculty of Business Economics at the University of Antwerp Belgium
