Occult Science Rudolf Steiner, 2013-10-10 Written in 1909 CW 13 An authorized translation of this classic work re edited beautifully typeset and designed from a professional publisher dedicated to high quality editions of Rudolf Steiner s books and lectures The Anthroposophy of Rudolf Steiner is not a theoretical system but the results of research based on direct observation As Steiner s research was so vast and conducted over such a long period of time no single book can be said to contain the whole of his spiritual teaching However of all his books Occult Science comes closest Steiner even referred to it as an epitome of anthroposophic Spiritual Science The book systematically presents the fundamental facts concerning the nature and constitution of the human being and chronologically the history of the universe and humankind Whereas the findings of natural science are derived from observations made through the senses the findings of Spiritual Science or Anthroposophy are occult inasmuch as they arise from direct observation of realities hidden to ordinary perception And yet these elements of humanity and the universe form the foundation of the sense world A substantial part of Occult Science is taken up with a description of the preliminary training needed to make such spiritual observations Given his energetic involvement in practical initiatives and extensive lecturing Steiner had little time to write books Of those he did write four titles form an indispensable introduction to his later teaching The Philosophy of Freedom CW 4 Theosophy CW 9 Knowledge of the Higher Worlds CW 10 and Occult Science An Outline CW 13 Occult Science An Outline is a translation from German of Die Geheimwissenschaft im Umriss GA 13

An Outline of Occult Science Rudolph Steiner, 2019-10-23 At the present time the words occult science are apt to arouse the most varied feelings Upon some people they work like a magic charm like the announcement of something to which they feel attracted by the innermost powers of their soul to others there is in the words something repellent calling forth contempt derision or a compassionate smile By many occult science is looked upon as a lofty goal of human effort the crown of all other knowledge and cognition others who are devoting themselves with the greatest earnestness and noble love of truth to that which appears to them true science deem occult science mere idle dreaming and fantasy in the same category with what is called superstition To some occult science is like a light without which life would be valueless to others it represents a spiritual danger calculated to lead astray immature minds and weak souls while between these two extremes is to be found every possible intermediate shade of opinion Strange feelings are awakened in one who has attained a certain impartiality of judgment in regard to occult science its adherents and its opponents when one sees how people undoubtedly possessed of a genuine feeling for freedom in many matters become intolerant when they meet with this particular line of thought And an unprejudiced observer will scarcely fail in this case to admit that what attracts many adherents of occult science or occultism is nothing but the fatal craving for what is unknown and mysterious or even vague And he will also be ready to own that there is much cogency in the reasons put forward against what is fantastic and visionary by serious opponents of the cause in question In fact one who studies occult science will do well not to lose sight of the fact that the impulse toward the mysterious leads many people on a vain chase after worthless and dangerous will o the wisps
