Psychoanalysis with Adolescents and Children Mary T. Brady, 2024-12-23 In *Psychoanalysis with Adolescents and Children* Learning to Surf Mary T Brady expertly guides the reader through the challenging and vital process of working with young analysands Brady likens the experience to learning to surf While finding Bion's metaphor that the analyst must be able to think under fire useful she suggests learning to surf is more apt in psychoanalysis with adolescents and children Drawing on this metaphor throughout the volume she describes how the adolescent can be potentially upended injured or even killed by emotional waves too tumultuous to manage Surfing also evokes the often uneasy but sometimes thrilling balances of adolescence Using clinical vignettes from her extensive experience in the field Brady explores how to work with young people experiencing issues such as eating disorders gender challenges parental substance abuse and the impact of the COVID 19 pandemic Drawing on Bionian Field Theory as well as the work of Donald Winnicott she explores how analysts can surf with the adolescent or child in navigating the ebb and flow of psychic life and development This book is essential reading for psychoanalysts and psychotherapists including psychiatrists psychologists therapists and counselors who treat children and adolescents

Braving the Erotic Field in the Psychoanalytic Treatment of Children and Adolescents Mary Brady, 2022-03-17 *Braving the Erotic Field in the Psychoanalytic Treatment of Adolescents and Children* is a groundbreaking collection of chapters by an international group of analytic authors The book addresses the general lack of psychoanalytic writing on working with erotic feelings in the consulting room when treating children and adolescents This lack is doubly odd given Freud's emphasis on childhood sexuality as well as the intensities of the adolescent body mind This book takes the view that the subtle interchange of feelings dreams narratives and images that arise when erotic feelings are in the fore is better conceptualized as an erotic field than with the binary of transference countertransference In contemporary psychoanalysis the idea that transference love offers the possibility of knowing the other in the deepest possible way is supplanting an attitude of suspicion Clinical work with small children to late adolescents will be offered including gay and gender fluid adolescents This book makes a decisive contribution to assist clinicians to brave the erotic field with children and adolescents

The Astonishing Adolescent Upheaval in Psychoanalysis Roosevelt Cassorla, Silvia Flechner, 2024-02-26 This book brings together international contributors to share insight from their theoretical and clinical work with adolescents considering the different psychopathological responses they see in adolescent patients and how these can be worked with in analysis Each chapter addresses a specific topic focusing on representing the clinical realities facing psychoanalysts in treating adolescents with different types of disturbances at the psychic level They cover a range of situations and perspectives including discussion of maternal violence the erotic field self mutilation and social withdrawal with a core focus on issues affecting contemporary adolescents Bringing together a vast range of experience *The Astonishing Adolescent Upheaval in Psychoanalysis* presents a new approach which re-establishes the impact of the responses of significant objects

in the impasses present in narcissistic suffering This book will be of great interest to all psychoanalytic and psychodynamic clinicians working with adolescents

Analytic Engagements with Adolescents Mary T. Brady, 2018-03-05 In *Analytic Engagements with Adolescents* Mary T Brady takes on the intensity and heat of adolescent psychoanalytic treatment She is a guide in the distinctive challenges of work with adolescents The intensity of this work manifests in various ways the heightened importance of body issues and related transference and countertransference the subversiveness of risk taking behavior and the rejection and rebellion against authority and the effects of parental response and family dynamics Adolescence is a period when things happen first wet dreams first menstruation first romance Nascent sexuality comes directly into the field as the adolescent is confronted with new bodily experiences Subversiveness is integral to the adolescent's development parents and analysts are overthrown as the adolescent questions the status quo and experiments with new capacities and desires Drawn into the adolescent's turbulence Bion's concept of thinking under fire is shown to be vital to the analyst's engagement Bion's group theory here informs Brady's immediate experience of the interaction of individual and family dynamics The voices of Brady's adolescent patients and her dynamic involvement with them will help the clinician to be open to the hot moments of their analytic work Drawing on Bion's thinking and her own extensive experience with adolescents Brady offers an essential guide to the difficulties and challenges encountered when working with this patient group She provides practical suggestions for psychoanalysts and psychoanalytic psychotherapists working in this area
