Pegis, 1997-01-01 Includes substantial selections from the Second Part of the Summa Theologica and the Summa Contra Gentiles Pegis's revision and correction of the English Dominican Translation renders Aquinas technical terminology consistently as it conveys the directness and simplicity of Aquinas writing the Introduction notes and index aim at giving the text its proper historical setting and the reader the means of studying St Thomas within that setting Basic Writings of Saint Thomas Aquinas Thomas (de Aquino.), 1945 Religious Knowledge James Kellenberger, 2022-11-30 This book addresses the place of religious knowledge in religion particularly within Christianity The book begins by examining the difference between the general concepts of knowledge and belief the relation between faith and knowledge and reasons why belief as faith and not knowledge is central to the Abrahamic religions The book explores the ambivalence about religious knowledge within Christianity Some religious thinkers explicitly accepted and sought religious knowledge as did St Thomas Aquinas while others notably S ren Kierkegaard cast knowledge and seeking it as incompatible with faith The book also examines two antithetical religious intuitions about knowledge both at home in the

Christian tradition For one faith requires a struggle with doubt For the other faith requires a certainty that excludes doubt For the first religious knowledge would destroy faith For the second religious knowledge is compatible with faith and completes it Though the book focuses on the Christian tradition it also considers other traditions including a chapter on the place of religious knowledge in nontheistic religious traditions The final chapter examines how coming to Wisdom as personified in the Jewish and Christian traditions may be distinct from attaining religious knowledge **Right and Reason** Austin Fagothey,1963 With the modern value theory as basis the point of discussion is Aristotelian Thomistic **Philosophy and Vision** Dane R. Gordon,2021-11-15 Philosophy and Vision argues that clear thinking and imaginative understanding are necessary qualities as we try to deal with the problems that confront us in our daily life The book discusses history the environment religion personal and corporate morality freedom the concept of person poetry and post modernism attempts to show that as a philosophic vision is brought to bear on all of these we will grasp them more completely and more constructively The issues which challenge most of us seldom have straightforward answers but they require some answers some response other than failing out of our emotions Attempting to see these philosophically to adopt a philosophic vision is no panacea but it may make the difference between being overwhelmed and being able to cope The book has a crisp enjoyable style and while it is a philosophical work it draws upon movies fiction poetry and life s experiences in developing its arguments **Analytical Legal Naturalism** Samuel Zinaich Jr.,2020-07-15 In legal jurisprudence the phenomenon of hard cases presents itself as a dilemma between the legal positivists and the natural law realists Of the former without the metaphysical underpinnings of an objective legal or moral standard the legal positivists cannot supply convincing arguments to supplant the sovereign as the origin and authority of law The natural law realists face the problem of justifying the natural law Against both views S Zinaich Jr defends a middle position Analytical Legal Naturalism ALN It represents an analytic norm both necessarily true and known a posteriori Against the legal positivists it supplies an objective legal standard by removing at least for hard cases the necessity of the will of a sovereign authority Against the natural law realists ALN provides a nonmoral standard which because of its analyticity and necessity avoids the need for metaethical speculation Finally ALN provides a standard that not only supplies the universalizable punch to avoid political subjectivism but does so in a conventional manner Thus ALN does not require a moral or modal reality as truth making characteristics Rather it makes what is legally valuable or disvaluable dependent upon empirically verifiable facts that are legally relevant
