Battlefield America The War On The American People:

Battlefield America John W. Whitehead, 2015 Author paints a portrait of an evolving American police state as police authority expands into extensions of the military and government's intrusions undermine basic freedoms guaranteed to American citizens under the Constitution turning Americans into enemy combatants who are spied upon raided manhandled silenced locked up shot at and denied due process of the law

Battlefield America John Whitehead, 2022-01-11 Police forces across the United States have been transformed into extensions of the military Our towns and cities have become battlefields and we the American people are now the enemy combatants to be spied on tracked frisked and searched For those who resist the consequences can be a one way trip to jail or even death

Battlefield America The War on the American People is constitutional attorney John W Whitehead's terrifying portrait of a nation at war with itself In exchange for safe schools and lower crime rates we have opened the doors to militarized police zero tolerance policies in schools and SWAT team raids The insidious shift was so subtle that most of us had no idea it was happening This follow up to Whitehead's award winning *A Government of Wolves* is a brutal critique of an America on the verge of destroying the very freedoms that define it Hands up the police state has arrived

When Texas Prison Scams Religion Michael G. Maness, 2023-05-22 When Texas Prison Scams Religion exposes corruption in the Texas Department of Criminal Justice especially in the abuse of religion In many ways this book is a literature review of 1 800 plus works that defends freedom of conscience in prison while exposing the unconstitutionality of the seminary program that buys faith with favor from prisoners The state veritably ordains the prisoner a Field Minister that represents the offices of the Governor TDCJ Director and wardens throughout the prison Therein TDCJ lies about neutrality in a program all about Christian missions and lies again in falsely certifying elementary Bible students as counselors Why is the director sponsoring psychopaths counseling psychopaths In fact TDCJ pays 314 million a year to UTMB for psychiatric care and receives not a single report of the care given and worse for UTMB generates no reports itself The underbelly TDCJ's executive culture of cover up is exposed TDCJ has hired the lowest qualified of the applicant pool many times in the last 25 years and regularly destroys statistics on violence TDCJ Dir Collier led the prison to model Louisiana

Warden Burl Cain the most scandal ridden in penal history according to a host of published news stories for 20 years Therein Collier led TDCJ to favor the smallest segment of religious society within Evangelical Dominionism Texas has no business endorsing the truth of any religion over another We close with a proposal that utilizes the 400 000 000 hours of officer contact over ten years as a definitive influence in contrast to a commissioner that spends less than 10 minutes on each decision Maness has been lobbying Austin for 15 years to definitively access staff for his 100 000 Mothers 1% Certainty Parole Texas Constitutional Amendment which would revolutionize prison culture and save Texans millions of the dollars

Battlefield America Brian Maloy,2024-11-26 A must have book for the first responder serious 2A supporter survivalist and threat assessment team member or professional With active killers and terrorists attempting to claim the very soul of our country modern Americans must be able to detect respond to and if necessary neutralize a deadly target attack This includes ensuring that threat assessment plans are balanced in order to build organizational readiness against these types of attacks The time to prepare is now as knowledge is your greatest weapon Battlefield America A Citizen s Guide to Surviving the New World fearlessly dives into Brian s unfiltered discussions on What contributed to this dark tribulation of America The transformation to warriorship while mitigating the human physiology during conflict whether you re armed or in the midst of an attack Critical firearm knowledge that every armed citizen and police officer should master but is rarely prioritized An invigorating but responsible discussion regarding deadly force and the mechanisms of deploying such force in self defense and defense of others The invaluable skills of situational and threat awareness Several NTAC studies that discuss risk factors and indicators associated with targeted violence that supports the scope of this book The underbelly of the targeted attacks we see today and the future Critical knowledge within a model called T A A R S or Threat Awareness Assessment Response and Survival that every organization should include in their Threat Assessment TA plan and response protocols **The American Way of War** Eugene Jarecki,2008-10-14 In the sobering aftermath of America s invasion of Iraq Eugene Jarecki the creator of the award winning documentary Why We Fight launches a penetrating and revelatory inquiry into how forces within the American political economic and military systems have come to undermine the carefully crafted structure of our republic upsetting its balance of powers vastly strengthening the hand of the president in taking the nation to war and imperiling the workings of American democracy This is a story not of simple corruption but of the unexpected origins of a more subtle and in many ways more worrisome disfiguring of our political system and society While in no way absolving George W Bush and his inner circle of their accountability for misguiding the country into a disastrous war in fact Jarecki sheds new light on the deepest underpinnings of how and why they did so he reveals that the forty third president s predisposition toward war and Congress s acquiescence to his wishes must be understood as part of a longer story This corrupting of our system was predicted by some of America s leading military and political minds In his now legendary 1961 farewell address President Dwight D Eisenhower warned of the disastrous rise of misplaced power that could result from the

increasing influence of what he called the military industrial complex Nearly two centuries earlier another general turned president George Washington had warned that overgrown military establishments were antithetical to republican liberties Today with an exploding defense budget millions of Americans employed in the defense sector and more than eight hundred U S military bases in 130 countries the worst fears of Washington and Eisenhower have come to pass Surveying a scorched landscape of America s military adventures and misadventures Jarecki s groundbreaking account includes interviews with a who s who of leading figures in the Bush administration Congress the military academia and the defense industry including Republican presidential nominee John McCain Colin Powell s former chief of staff Colonel Lawrence Wilkerson and longtime Pentagon reformer Franklin Chuck Spinney Their insights expose the deepest roots of American war making revealing how the Arsenal of Democracy that crucially secured American victory in WWII also unleashed the tangled web of corruption America now faces From the republic s earliest episodes of war to the use of the atom bomb against Japan to the passage of the 1947 National Security Act to the Cold War s creation of an elaborate system of military industrial congressional collusion American democracy has drifted perilously from the intent of its founders As Jarecki powerfully argues only concerted action by the American people can and must compel the nation back on course The American Way of War is a deeply thoughtprovoking study of how America reached a historic crossroads and of how recent excesses of militarism and executive power may provide an opening for the redirection of national priorities

I Am the Law: How Judge Dredd Predicted Our Future Michael Molcher, 2023-02-23 He is the law and you better believe it Judge jury and executioner Judge Dredd is the brutal comic book cop policing the chaotic future urban jungle of Mega City One created by John Wagner and Carlos Ezquerra and launching in the pages of 2000 AD in 1977 But what began as a sci fi action comic quickly evolved into a searing satire on hardline militarised policing and law and order politics its endless inventiveness and ironic humour acting as a prophetic warning about our world today and with important lessons for our future Blending comic book history with contemporary radical theories on policing I Am The Law takes key Dredd stories from the last 45 years and demonstrates how they provide a unique wake up call about our gradual and not so gradual slide towards authoritarian policing From the politicisation of policing to zero tolerance from violent suppression of protest to the rise of the surveillance state I Am The Law examines how a comic book warned us about the chilling endgame of today s law and order politics
