A Nation Betrayed Secret Cold War Experiments Performed On:

A Nation Betrayed Carol Rutz, 2001 **American Heart of Darkness** Robert Kirkconnell, 2013-05-21

These days most Americans know that the country has serious problems. Problems that will have to be addressed before the country can move forward. What are these problems? Where did they come from? Before we can move forward, we have to know where we are and how we got there. *American Heart of Darkness* paints an unvarnished picture of the seeds of destruction that were sown into the foundations of the Republic from the very beginning. How did slavery come about in the land of the free? How did a pre-Columbian native population in North America alone of over eighteen million yes you heard it right native peoples dwindle down to about two hundred thousand? Was it really Small Pox? Why has a people who constantly talk about freedom, democracy, equality, human rights, life, liberty, and the pursuit of happiness continually practiced racism, genocide, and war? How do drugs come into the country and who is really behind the most profitable product sold in the world? There are also other unanswered questions that need to be explored. Why were thousands of the worst Nazi war criminals given refuge in the U.S.? Who financed Hitler? Where did Hitler get his master race and genocidal ideas from? Was Lee Harvey Oswald a C.I.A. agent? Were Oswald, Sirhan, Sirhan, Ted Kaczynski, Timothy McVey, and the Peoples Temple all mind control MKULTRA subjects? What really happened in the Jeffery MacDonald so-called Fatal Vision case? How does hundreds of billions of dollars come into the United States every year without detection? The answers to these questions and many more will surprise you. They are not in the History books, although they should be. *American Heart of Darkness* Volume I explores the ugly side of America that has been hidden for far too long and it is literally killing us. This book is not for the reader looking for an uplifting story to escape everyday life for a few hours. It is for true patriots who are sick and tired of being lied to and stolen from. It is for those who know they need to do something but do not know where to start. It is for those who feel powerless and that America's problems are far too big for little ol me to handle. It is for those with the courage to go from darkness to light. As comedian and activist Dick Gregory once said, "If you been in the DARK for so long, LIGHT will hurt your eyes. This book will hurt your eyes. The reader will be shocked, then angry, then motivated, and finally in the authors next two books, empowered and liberated. It is better to see where we are and where we need to go right now before it is too late. Congratulations! If you have read this far, this book is probably for you. Please keep in mind the universal truth that with any form of government, the leaders only have the power that the people allow them to have. This was true in India when a little skinny guy named Gandhi with no money and only a rag wrapped around his middle took on the British Empire and won. There is no question that the American people have the power to reclaim a government that is clearly not being run for them. We have to empower ourselves to take this government back from only a handful of selfish and greedy individuals who have proven that they only care about making more and more money. Let us all stop giving them the power that belongs to us. Reading this book is a beginning, and then we will talk about what to do about it in the authors next two books." Therapeutic Revolutions Martin

Halliwell,2013-04-19 *Therapeutic Revolutions* examines the evolving relationship between American medicine psychiatry and culture from World War II to the dawn of the 1970s In this richly layered intellectual history Martin Halliwell ranges from national politics public reports and healthcare debates to the ways in which film literature and the mass media provided cultural channels for shaping and challenging preconceptions about health and illness Beginning with a discussion of the profound impact of World War II and the Cold War on mental health Halliwell moves from the influence of work family and growing up in the Eisenhower years to the critique of institutional practice and the search for alternative therapeutic communities during the 1960s Blending a discussion of such influential postwar thinkers as Erich Fromm William Menninger Erving Goffman Erik Erikson and Herbert Marcuse with perceptive readings of a range of cultural text that illuminate mental health issues among them *Spellbound Shock Corridor Revolutionary Road* and *I Never Promised You a Rose Garden* this compelling study argues that the postwar therapeutic revolutions closely interlink contrasting discourses of authority and liberation

The Doctrine of the Doors: A Bible Based Study of the Portals of Heaven and Hell Matthew S Crane,2018-07-01 Mankind s technology is advancing at a breathtaking pace Things that were regarded a hundred years ago as fanciful imaginations are now a part of our everyday lives Modern evolutionary science would argue that man is currently at his highest potential yet the Bible paints a very different picture and indicates that shortly after the flood of Noah human ingenuity reached its pinnacle and God Himself had to stop it Through careful and thorough study of the Scriptures this book will display to the reader the blueprints of God s universe the secret passageways that He built into it and how beings from the spiritual realm can enter into the physical realm and visa versa Once one begins to understand the Doctrine of the Doors the diabolical purpose of the massive Tower of Babel comes into full view The greatest existential threat the human race has ever seen since the Flood circa 2348 B C did not come in the form of a bomb or in the form of a weaponized virus it came in the form of a tower that was being assembled in a plain of the land of Shinar over 4 000 years ago Humanity is getting closer and closer to discovering the knowledge that they once possessed It will not be long before it is understood that the truth is not out there but rather right here and that the SKY really is the limit
