A Mission From God A Memoir And Challenge For America:

A Mission from God James Meredith, 2012-08-07 I am not a civil rights hero I am a warrior and I am on a mission from God James Meredith James Meredith engineered two of the most epic events of the American civil rights era the desegregation of the University of Mississippi in 1962 which helped open the doors of education to all Americans and the March Against Fear in 1966 which helped open the floodgates of voter registration in the South Part memoir part manifesto A Mission from God is James Meredith's look back at his courageous and action packed life and his challenge to America to address the most critical issue of our day how to educate and uplift the millions of black and white Americans who remain locked in the chains of poverty by improving our public education system Born on a small farm in Mississippi Meredith returned home in 1960 after nine years in the U S Air Force with a master plan to shatter the system of state terror and white supremacy in America He waged a fourteen month legal campaign to force the state of Mississippi to honor his rights as an American citizen and admit him to the University of Mississippi He fought the case all the way to the Supreme Court and won Meredith endured months of death threats daily verbal abuse and round the clock protection from federal marshals and thousands of troops to become the first black graduate of the University of Mississippi in 1963 In 1966 he was shot by a sniper on the second day of his Walk Against Fear to inspire voter registration in Mississippi Though Meredith never allied with traditional civil rights groups leaders of civil rights organizations flocked to help him complete the march one of the last great marches of the civil rights era Decades later Meredith says Now it is time for our next great mission from God You and I have a divine responsibility to transform America

Football, Culture and Power David J. Leonard, Kimberly B. Black Masculinity and the Cinema of Policing Jared Sexton, 2017-11-07 This book offers a critical survey of film and media representations of black masculinity in the early twenty first century United States between President George W Bush's 2001 announcement of the War on Terror and President Barack Obama's 2009 acceptance of the Nobel Peace Prize It argues that images of black masculine authority have become increasingly important to the legitimization of contemporary policing and its leading role in the maintenance of an antiblack social order forged by racial slavery and segregation It examines a constellation of film and television productions from Antoine Fuqua's Training Day to John Lee Hancock's The Blind Side to Barry Jenkins' Moonlight to illuminate the contradictory dynamics at work in attempts to reconcile the promotion of black male patriarchal empowerment and the preservation of gendered antiblackness within political and popular culture

A Century of Segregation Leland Ware, 2018-10-18 This book explains how race and class intersect in ways that uniquely disadvantage racial minorities The narrative begins with the 1896 decision in Plessy v Ferguson The Supreme Court ruled that separate facilities for blacks were permissible under the Fourteenth Amendment if they were equal to those reserved for whites One reaction was the establishment of the NAACP to lead the fight for Civil Rights After more than two decades of lobbying and public education a long range carefully orchestrated litigation campaign was launched Segregation would be challenged with lawsuits insisting that black schools be made physically and otherwise equal to white schools The lawyers calculated that the resulting burden and expense would ultimately cause segregation to collapse under its own weight A series of successful equalization suits spanning over two decades laid the foundation for the direct challenge in Brown v Board of Education That 1954 decision inspired a large scale grass roots Civil Rights Movement A decade of marches boycotts and mass protests persuaded Congress to enact the Civil Rights laws of the 1960s Today conditions for ethnic minorities are far better than they were a generation ago However the story of the nation's black and brown communities is a tale of two cities one prosperous educated and affluent adjacent to another suffering from grinding poverty and a lack of opportunities for advancement For those able to take advantage of the opportunities created by the Civil Rights revolution the gains have been dramatic For those left behind in impoverished communities the obstacles to advancement are more daunting today than they were a generation ago
