Sharon Suzanne Graham,2016-06-30 Stories of princes and princesses abound Nowadays there seems to be a princess to suit the personality of every young girl Why are these stories so popular Is it just because all the world loves a love story or is there another reason Why do the princes and princesses always live happily ever after Archeology and ancient records reveal that the most ancient love story was written in hieroglyphic picture language with stars Over time some of the constellation pictures have become distorted By restoring the pictures the ancient story can be understood and appreciated The Great Controversy in the Stars is a restoration of the original epic story of the prince the princess and the dragon It is a large print full color story book including a list of names and meanings for the original 48 constellations and a colored sky atlas with easy to recognize figures It is the first of a series followed by *He Calls His Stars by Name* which looks at the names and meaning of the individual stars      They and I Jerome Klapka Jerome,1909      *Interpreting Literature With Children*

Shelby A. Wolf,2014-04-04 Clearly organized and beautifully written *Interpreting Literature With Children* is a remarkable book that stands on the edge of two textbook genres the survey of literature text and the literary criticism text Neither

approach however says enough about how children respond to literature in everyday classroom situations That is the mission of this book It begins by providing a solid foundation in both approaches and then examines multiple ways of developing children s literary interpretation through talk through culture class and gender as well as through creative modes of expression including writing the visual arts and drama The result is a balanced resource for teachers who want to deepen their understanding of literature and literary engagement Because of its modest length and price and its ongoing focus on how to increase student engagement with literature either pre service or practicing teachers can use this text in children s literature language arts or literacy and language courses
