

VAMPIRE BASICS

As much as I find vampires fascinating, I would hardly encourage such restless behavior! The consequences are far too great!

They haunt the streets at midnight and roam abandoned homes. They charm even those most skeptical of magic, and they inspire fear, while at the same time inspiring curiosity. I'm talking, of course, about vampires.

Vampires are formed by the bite of another vampire. Most victims are unwilling. But I have heard stories of foolish mortals who seek out vampires in order to become one themselves. In my years of research, one fact has become certain: vampires are a most elusive race of monsters, and no one has any clear idea just how many hide among us.

After meeting my first vampire, and seeing vampire themselves, I put together a list of vampire characteristics to help me recognize a vampire in the future.

HOW TO RECOGNIZE A VAMPIRE

If you're unsure if you have met a vampire, look for the following characteristics:

1. Pale skin. You can almost see the veins through the skin!
2. No shadow and no reflection.
3. Mostly active at night.
4. Eyes with a reddish cast. Green or blue irises.
5. Thick, healthy hair.
6. A person who suddenly appears and/or suddenly vanishes, without warning or prelude.

Vampires don't cast shadows, and they avoid mirrors.

You will also NOT see any scratches or wounds.

Some vampires have teeth. Others no more than a few fangs!

A Practical Guide To Vampires
