Troubled Transit Antje Missbach, 2015-09-11 *Troubled Transit* considers the situation of asylum seekers stuck in limbo in Indonesia from a number of perspectives. It presents not only the narratives of many transit migrants but also the perceptions of Indonesian authorities and of representatives of international and non-government organizations responsible for the care of transiting asylum seekers. Fascinated by the extraordinary and seemingly limitless resilience shown by asylum seekers during their often lengthy and dangerous journeys, the author highlights one particular fragment of their journeys: their time in Indonesia, which many expect to be the last stepping stone to a new life. While they long for their new life to unfold, most asylum seekers become embroiled in the complexities of living in transit. Indonesia, a vast archipelago of more than 17 000 islands, is more than a location where people spend time waiting; it is a nation-state that interacts with transiting asylum seekers and formulates policies that have a profound impact on their experience in transit. There, *Troubled Transit* tries to explain the complexities faced by the transiting migrants within the context of the Indonesian government and its political challenges, including its relationship with Australia. The Australia-centric view of recent asylum seeker issues has tended to ignore the larger socio-political context of the migratory routes and the perspectives of transit states towards asylum seekers stuck in transit. This book hopes to direct the Australia-centric gaze northwards, to take Indonesian policies and policymaking into account, thereby giving Indonesia more relevance as a transit country and as an important partner in regional protection schemes and migration management. Even though some Indonesian policies and practices are less than favourable for asylum seekers and even reprehensible from a human rights perspective, more attention must be paid to ongoing developments that impact on transiting asylum seekers in Indonesia if any of the hardships they suffer there are to be alleviated.

Not Going it Alone: The Dynamics of EU-IMF Interaction over 20 Years of Monetary Unification Niklas Manhart, 2014-04-15 Research Paper, postgraduate from the year 2014 in the subject Politics, Topic European Union, grade 1.5, London School of Economics, European Institute course MPhil/PhD Programme, language English, abstract: This paper assesses the dynamics of EU-IMF interaction over the course of European monetary unification. Thereby, it adds to a growing body of literature on the external dimension of EU policy-making. To illustrate how EU-IMF relations have changed over the last 20 years, the paper first finds that member states remain the primary but not the only actors. Second, it provides a descriptive account of EU-IMF relations in the observed period, both in its institutional and functional dimension. Its main finding is that institutional and functional interaction have not developed in parallel, i.e. that the increase in day-to-day engagement between the IMF and the EU through the activities of surveillance, lending, and technical assistance, in particular as a result of the sovereign debt crisis in the euro zone, has not corresponded to formalization of EU-Fund relations.
