

Accounting Capstone Project Sample

ABSTRACT

The capstone courses required in accounting programs integrate the experiences of students throughout the curriculum (Washington University, 2007), while offering distinct (Shadh, 2005) as well as experiences that are considered as transformative. Students take several courses under the accounting program without having to prepare complete series of financial statements. As such, accountants need not just calculate the amounts needed for financial statements, but also skills and knowledge needed in order to choose reporting methods and principles, identifying the judgment needed in applying them, as well as the capability to prepare different financial statements, as disclosures. This capstone paper discusses the use of Excel in the field of individually tailored, computer assisted, as well as learning experience designed to offer students collaborate experiences which otherwise would be missing out of the accounting program.

INTRODUCTION

Throughout the years, capstone courses under different accounting programs have been tested to be useful when it comes to introducing the students' experiences to collaborating their skills regarding discipline curriculum (Washington University, 2007). The faculty is urged to implement teaching methods that are learner centered, or those which are coherent and
