Acer Timeline Manual:

A Resource Manual for the Enhancement of Wildlife Habitat in the Urban Environment Stuart T. Mizuta, 1993 *Manual de conductas adictivas* Roberto Secades-Villa, Gloria García-Fernández, Sergio Fernández Artamendi, 2022-10-13 El campo de las conductas adictivas es un ámbito profesional de gran demanda y expansión entre los profesionales sanitarios y en especial entre los psicólogos La relevancia del papel de la psicología viene avalada por la evidencia demostrada de la efectividad de las terapias psicológicas en el tratamiento de este tipo de problemas Frente al reduccionismo biológico la naturaleza esencial del modelo psicológico consiste en analizar y explicar las conductas adictivas en relación con el contexto como parte esencial de la concepción biopsicosocial que constituye hoy en día el marco predominante en el tratamiento de las conductas adictivas Los tratamientos psicológicos de las conductas adictivas han tenido importantes avances en los últimos años y de ahí la necesidad de disponer de un manual en español que describa la situación actual en este ámbito de intervención Este libro nace con la idea de aportar un análisis riguroso de este tipo de problemas basado en los datos que aporta la investigación y la práctica clínica En esta obra en oposición a lo que se acostumbra en este tipo de publicaciones se ha optado por una exposición transversal adoptando un modelo transdiagnóstico organizando los capítulos en función de los procedimientos y no en relación con las sustancias como si se tratara de fenómenos esencialmente diferentes Este manual tiene una orientación didáctica y se ha escrito pensando en los estudiantes y en los profesionales de la psicología aunque también es útil para otros especialistas de la salud que estén interesados en este tipo de problemas La calidad científica de los contenidos del texto está acreditada por la participación de más de cuarenta excelentes expertos provenientes tanto del ámbito clínico como académico que proporcionan una visión rigurosa y actual acerca de los principales procedimientos de evaluación y tratamiento de los trastornos por uso de sustancias y de otras conductas adictivas **Brain and Cognition for Addiction Medicine: From Prevention to**

Glina,2014-09-26 On one level Philosophy for Children P4C exists takes place and is understood as a set of relatively theory neutral practices we share a story or other kind of stimulus that is both meaningful and philosophically problematic we raise questions about it that will help us inquire into what is problematic we inquire together as a community of philosophical inquiry mostly through a process of dialogue we explore ways to experiment with these dialogical judgments in writing in works of art in action and in life and we self assess our own thinking and our work as a community of inquiry in order to collectively self correct On another level P4C exists takes place and is understood as a set of theory laden and agenda laden practices that are undertaken as means to certain kinds of desired outcomes These are the program s aims and objectives and they come from three places the core practices inherent in P4C those that have become obvious to practitioners or have developed out of extensive practice and those that have developed out of philosophical and empirical research in philosophy and education including epistemology learning theory argumentation theory and the politics of discourse and political theory This last kind of work presents the challenge to P4C to find out if there is such a thing as a core theory that justifies the core practices and if so whether the integrity offered by such a theory is either shored up or compromised by being pulled in any of these other directions The diversity of curriculum materials pedagogical protocols and grounding theories P4C has spawned signifies not merely different approaches to but different conceptions of what it means to teach philosophy to children or to engage children in philosophical practices The chapters in Philosophy For With and Of Children present a broad range of directions for P4C and illustrate the considerable diversity of agendas that can be brought to it as well as the ways in which these agendas sometimes complement and sometimes undermine one another **InfoWorld** ,1988-02-22
