Adapting To Teaching And Learning In Open Plan Schools:

Adapting to Teaching and Learning in Open-Plan Schools Vaughan Prain, Peter Cox, Craig Deed, Debra Edwards, Cathleen Farrelly, Mary Keeffe, Valerie Lovejoy, Lucy Mow, Peter Sellings, Bruce Waldrup, Zali Yager, 2014-11-26 In recent years many countries have built or renovated schools incorporating open plan design These new spaces are advocated on the basis of claims that they promote fresh productive ways to teach and learn that address the needs of students in this century resulting in improved academic and well being outcomes These new approaches include teachers planning and teaching in teams grouping students more flexibly developing more coherent and comprehensive curricula personalising student learning experiences and providing closer teacher student relationships In this book we report on a three year study of six low SES Years 7 10 secondary schools in regional Victoria Australia where staff and students adapted to these new settings In researching this transitional phase we focused on the practical reasoning of school leaders teachers and students in adapting organisational pedagogical and curricular structures to enable sustainable new learning environments We report on approaches across the different schools to structural organisation of students in year level groupings distributed leadership teacher and pre service teacher professional learning student advocacy and wellbeing use of techno mediated learning personalising student learning experiences and curriculum design and enactment We found that these new settings posed significant challenges for teachers and students and that successful adaptation depended on many interconnected factors We draw out the implications for successful adaptation in other like settings

Personalising Learning in Open-Plan Schools Vaughan Prain, Peter Cox, Craig Deed, Debra Edwards, Cathleen Farrelly, Mary Keeffe, Valerie Lovejoy, Lucy Mow, Peter Sellings, Bruce Waldrup, 2015-11-03 How can widely acknowledged challenges facing regional secondary schools with high concentrations of low SES students ineffectual curricula and poor levels of student engagement attendance and wellbeing be addressed In this book we report on key outcomes of the Bendigo Education Plan that aimed to improve the academic attainment and wellbeing of 3000 regional secondary students This Plan entailed rebuilding four Years 7 10 colleges and developing a differentiated and personalised curriculum with teachers team teaching in open plan settings We analyse how and why teachers and students adapted to these new practices We focus on both generic changes in the schools around the use of ICTs and the organisation of the curriculum and on specific approaches to teaching and learning in English mathematics science social studies and studio arts This book provides research based guidelines on how the curriculum can be renewed and enacted effectively in these and like schools In analysing a large scale attempt to address the challenge of making learning personalised and meaningful for this cohort of students our book addresses larger questions about quality secondary curriculum and successful teacher professional learning support

School Space and its Occupation, 2018-09-06 School Space and its Occupation addresses the ongoing and pressing need for justification of education and environmental innovation Further the increasingly important work of evaluating the new learning spaces brings attention to

the need for conceptual and methodological clarity The editors have assembled a collection of leading authors to explore the links between education and design progression of ideas in education and architecture as well as making sense of pedagogical trends and spatial and design relevance Post occupancy evaluation is capable of informing both educational and architectural questions to generate sustainable adaptations for educators and designers Part 2 focuses on the occupancy phase and examines the lived experience of schools to draw conclusions and make recommendations focused impacts and methodological progression Contributors Renae Acton Scott Alterator Benjamin Cleveland Craig Deed Matthew Dwyer Debra Edwards Neil Gislason Wesley Imms Peter Lippman Elizabeth Matthews Marcus Morse Vaughan Prain Matthew Riddle Warren Sellers Rebecca Townsend and Adam Wood

Teacher Transition into Innovative Learning Environments

Wesley Imms, Thomas Kvan, 2020-11-30 This open access book focuses on how the design and use of innovative learning environments can evolve as teaching practices and education policies change It addresses how these new environments are used how teachers are adapting their practices the challenges that these changes pose and the effective evaluation of these changes The book reports on emerging research in learning environments with a particular emphasis on how teachers are transitioning from traditional classrooms to innovative learning environments It offers a significant evidence based global assessment of current research in this field by designers architects educators and policy makers It presents twenty five cutting edge projects from researchers in fifteen countries Thanks to the book's comprehensive international perspective which combines theory and practice in a single publication readers will gain a wealth of new insights *The SAGE*

Handbook of Research on Teacher Education D. Jean Clandinin, Jukka Husu, 2017-06-14 The SAGE Handbook of Research on Teacher Education offers an ambitious and international overview of the current landscape of teacher education research as well as the imagined futures The two volumes are divided into sub sections Section One Mapping the Landscape of Teacher Education Section Two Learning Teacher Identity in Teacher Education Section Three Learning Teacher Agency in Teacher Education Section Four Learning Moral Ethical Responsibilities of Teaching in Teacher Education Section Five Learning to Negotiate Social Political and Cultural Responsibilities of Teaching in Teacher Education Section Six Learning through Pedagogies in Teacher Education Section Seven Learning the Contents of Teaching in Teacher Education Section Eight Learning Professional Competencies in Teacher Education and throughout the Career Section Nine Learning with and from Assessments in Teacher Education Section Ten The Education and Learning of Teacher Educators Section Eleven The Evolving Social and Political Contexts of Teacher Education Section Twelve A Reflective Turn This handbook is a landmark collection for all those interested in current research in teacher education and the possibilities for how research can influence future teacher education practices and policies *School-University Partnerships—Innovation in Initial Teacher Education* Ondine Jayne Bradbury, Daniela Acquaro, 2022-10-30 This book showcases models of Australian school university partnerships which in their development respond to and aim to move beyond the principles and practices of current

partnership mandates in initial teacher education Supported by government policy these partnerships reveal innovative ways of working across multiple stakeholder groups within a range of unique school university partnership contexts Each of the examples of school university partnerships within this edited collection provide insights into the power and potential of cross sectoral vision collaboration and growth drawing upon research evidence and impact data that points to the mutual benefits experienced by all stakeholders Across its ten chapters this book explores various examples of partnerships and forms an important reference for all initial teacher education providers schools and educational stakeholders as school university partnerships necessitate the way these sectors connect learn from one another and inform future practice

Pedagogy and Partnerships in Innovative Learning Environments Noeline Wright, Elaine Khoo, 2021-10-11 This book examines contexts and possibilities in Aotearoa New Zealand education contexts arising from the international trend for open flexible innovative learning environments ILE specifically on the pedagogical load The book responds to questions such as What does it mean to teach learn or lead in an innovative learning environment What happens when teachers move from single cell learning spaces to open collaborative ones The chapters provide examples of how teaching in new spaces can be an exciting challenge for teachers and students where they try new ways of teaching and learning and rethink the purposes of learning and the implications of societal change for learning and what is valued Examples are drawn from pre service teachers working in primary and secondary schools and in service teachers learning to become professionals The book offers insights into a variety of educational contexts where teachers and students learn and adapt to new learning spaces and also how different teaching and learning partnerships may be conceived and flourish It focuses attention on a range of aspects that teachers school leaders and other educators and researchers may find valuable when they embark on similar initiatives to consider issues pivotal to productive and effective innovative learning environment design development and implementation
