Addiction in the Lives of Registered Nurses and Their Wake-Up Jolt to Recovery Carol Stanford,2018-10-15 In this age of increasing headlines about drug addiction and prescription drug abuse

this book is a timely revelation of how the nursing profession is also impacted by substance abuse. It allows nurses who are the most trusted profession in society who have been hidden within their profession and living with substance use disorders to openly voice their personal experiences with addiction. Seven nurses detail their journey through family dynamics early use as nursing students and later career nurses as they traveled deeper and deeper into their addiction. They discuss their shame, humiliation, and dejection under the throes of the compelling forces of drugs and alcohol. They also describe how their family, other nurses, the healthcare system, and society assisted them in perpetuating their deception and denial about their disease. They explain how they lied, stole, and cheated those around them to maintain their addiction. Each explains in detail the confrontations and the jolt and wake up call it took for them to awaken, become sober, and truly enter recovery. They are all candid and forthright in order to help others that are impacted by this horrific and complex disease. They each share how recovery is possible when appropriate attitudes and tools are put in place to support nurses suffering from the devastation of addiction. Their stories bring attention to the importance of intervention, treatment, and recovery communities within the nursing profession. Recovery is emphasized as a gift by each of these nurses. The nurses and the researcher provide suggestions and recommendations to assist the healthcare community in addressing addiction in nursing. This book reveals how recovery for nurses is a major public health benefit.

Introduction to the Counseling Profession

David Capuzzi, 2013-06-07. Introduction to the Counseling Profession is a comprehensive overview of the history and foundational concepts of counseling, offering the most current and relevant breadth of coverage available. Students will gain insight into the myriad issues that surround not only the process of counseling and its many populations but also the personal dynamics that have an impact on this process. The contributed author format provides state-of-the-art information from experts in their respective fields while maintaining a consistent structure and message. This edition has been brought in line with the 2009 Council for the Accreditation of Counseling and Related Educational Programs (CACREP) standards and includes chapters on each of the CACREP specializations. Topics rarely treated in other introductory texts are addressed, such as research and writing in counseling, technology and counseling, and self-care and growth. This edition includes new pedagogical features such as sidebars and more case studies to expand on key topics, as well as new chapters on Cross Cultural Counseling, Self-Care and Self-Growth, Individual Counseling, Diagnosis and Treatment Planning, Addictions Counseling, Student Affairs, and College Counseling. A collection of supplemental resources are available online to benefit both instructors and students. Instructors will find PowerPoint slides and test banks to aid in conducting their courses, and students can access chapter summaries, exercises, and other tools to supplement their review of the material in the text.
