Anzac Memories Alistair Thomson, 2013-11-01 *Anzac Memories* was first published to acclaim in 1994 and has achieved international renown for its pioneering contribution to the study of war memory and mythology Michael McKernan wrote that the book gave as good a picture of the impact of the Great War on individuals and Australia as we are likely to get in this generation and Michael Roper concluded that an immense achievement of this book is that it so clearly illuminates the historical processes that left men like my grandfather forever struggling to fashion myths which they could live by In this new edition Alistair Thomson explores how the Anzac legend has transformed over the past quarter century how a post memory of the Great War creates new challenges and opportunities for making sense of the national past and how veterans war memories can still challenge and complicate national mythologies He returns to a family war history that he could not write about twenty years ago because of the stigma of war and mental illness and he uses newly released Repatriation files to question his own earlier account of veterans post war lives and memories and to think afresh about war and memory *Oral History and Education* Kristina R. Llewellyn, Nicholas Ng-A-Fook, 2017-04-03 This book considers if and how oral history is best practice for education International scholars practitioners and teachers consider conceptual approaches methodological limitations and pedagogical possibilities of oral history education These experts ask if and how oral history enables students to democratize history provides students with a lens for understanding nation states development and supports historical thinking skills in the classrooms This book provides the first comprehensive assessment of oral history education inclusive of oral tradition digital storytelling family histories and testimony within the context of 21st century schooling By addressing the significance of oral history for education this book seeks to expand education s capacity for teaching and learning about the past Interactive Documentary Kathleen M. Ryan, David Staton, 2022-03-17 Interactive documentary is still an emerging field that eludes concise definitions or boundaries Grounded in practice based research this collection seeks to expand the sometimes exclusionary field giving voice to scholars and practitioners working outside the margins Editors Kathleen M Ryan and David Staton have curated a collection of chapters written by a global cohort of scholars to explore the ways that interactive documentary as a field of study reveals an even broader reach and definition of humanistic inquiry itself The contributors included here highlight how emerging digital technologies collaborative approaches to storytelling and conceptualizations of practice as research facilitate a deeper engagement with the humanistic inquiry at the center of documentary storytelling while at the same time providing agency and voice to groups typically excluded from positions of authority within documentary and practice based research as a whole This collection represents a key contribution to the important and vocal debates within the field about how to avoid replicating colonial practices and privileging This is an important book for practice based researchers as well as advanced level media and communication students studying documentary media practices interactive storytelling immersive media technologies and digital methodologies *Making*
